- Weeks 1-12: On campus (Two four-hour clinic sessions per week; 100% attendance required)

Co-requisites: Nil

Pre-requisites: BIOP221, CMCM221, CMCP221, SOCA221

Subject overview

This subject allows students to apply their knowledge in a clinical placement at Endeavour's facilities. CMCP311 students, working as junior acupuncturists, will be paired with senior student mentors and supervised by qualified practitioners. They will alternate between lead and supporting roles, engage in peer learning and assessment, and use feedback from supervisors, patients, and peers, alongside self-reflection, to enhance their skills. The subject covers acupuncture, Chinese remedial massage (tui na), herbal medicines, dietetics, lifestyle therapies, biomedical sciences, clinical management, and counselling. Students will develop an evidence-informed, patient-centred approach and focus on creating and reviewing treatment plans within an inter-professional healthcare model.

Assessments: Continuous Skills Assessment
