EXECUTIVE SUMMARY

The Community Health department at Hoag Memorial Hospital Presbyterian was established in 1995. Since its beginning the program has focused on two principal strategies:

- Provide necessary healthcare-related services which are unduplicated in the community.
- Provide financial support to existing community based not-for-profit organizations which already provide effective healthcare and related social services to meet community health needs.

The Department of Community Health, led by its Director, Michael Rose, DrPH spearheads the organizations' efforts in the community, providing several flourishing outreach programs. The department functions with the same vision of promoting population-based health efforts. Housed within the Melinda Hoag Smith Center for Healthy Living (MHSCHL), the department focuses its efforts on improving health and well-being by providing services to the vulnerable and at-risk surrounding community. Programs include mental health services, health ministries or spiritually based wellness programs, a grantmaking program, and many more programs and services through our collaborative partnerships. In addition to these services, many other Hoag departments also provide community health services including education and support groups which are free/and or low cost to the community.

Hoag provides uncompensated care (charity) to patients who are unable to pay for the full cost of their care. These expenditures amounted to over \$51 million during CY 2019 (January 1, 2019 through December 31, 2019). Hoag's charity care and self-pay discount policy states that self-pay and uninsured patients who are unable to pay for the full cost of their care may qualify for charity or discounts on a sliding scale for incomes up to 400% of the federal poverty level.

Total quantifiable Community Benefit expenditures (excluding Medicare Cost of Unreimbursed Care) for CY 2019 amounted to over \$67 million.

This report provides detailed descriptions of Hoag's Community Benefit programs and services, and includes quantifiable data for expenditures by programs during CY 2019.

CHAPTER I: HISTORY & COMMUNITY BENEFIT STRUCTURE

Introduction

The Hoag Memorial Hospital Presbyterian Community Benefit Program was formalized in 1995 and has grown significantly since that time. We have served over 100 nonprofit community organizations in a variety of health and social service categories. We continue to emphasize the development of sustained collaborative relationships and the provision of unduplicated services to disadvantaged residents in our community as core elements of the program.

Hoag's nonprofit regional health care delivery network consists of two acute-care hospitals – Hoag Hospital Newport Beach, which opened in 1952, and Hoag Hospital Irvine, which opened in 2010 – in addition to 13 urgent care centers and nine health centers, and has delivered a level of personalized care that is unsurpassed among Orange County's health care providers. Renowned for its excellence, specialized health care services and exceptional physicians and staff, Hoag is admired as one of California's leading hospitals. It is one of the county's largest employers with approximately 6,500 employees and more than 2,000 volunteers. Hoag's network of more than 1,700 physicians represents 52 different specialties.

Hoag is a designated Magnet[®] hospital by the American Nurses Credentialing Center (ANCC) and is fully accredited by DNV. Hoag offers a variety of health care services to treat virtually any routine or complex medical condition. Through its medical staff, state-of-the-art equipment and modern facilities, Hoag provides a full spectrum of health care services including five institutes that provide specialized services in the following areas: cancer, heart and vascular, neurosciences, women's health, and orthopedics through Hoag's affiliate, Hoag Orthopedic Institute, which consists of an orthopedic hospital and two ambulatory surgical centers.

To further Hoag's commitment to provide comprehensive care to the communities we serve, Hoag Medical Group was established in 2012 with the core values of excellence, innovation and compassion. The physician group comprises specialists and subspecialists in internal medicine, family medicine, pediatrics, geriatrics, acupuncture, neuromusculoskeletal, endocrinology, genetics, rheumatology, diabetes, allergy & immunology and HIV medicine.

Hoag was once again the highest ranked hospital in Orange County in the 2019-2020 U.S. News & World Report. This marks the third year in a row Hoag has achieved this level of recognition. The organization was ranked the #4 hospital in the Los Angeles Metro Area and the #8 hospital in California. Additionally, Hoag was #37 in Neurology & Neurosurgery, #41 in Gynecology, #41 in Orthopedics and #48 in Gastroenterology and GI Surgery. Hoag ranked high performing in Cancer, Geriatrics, Nephrology, Pulmonology & Lung Surgery and Urology as well as in all nine common adult procedures including: Abdominal Aortic Aneurysm Repair, Aortic Valve Surgery, Colon Cancer Surgery, Chronic Obstructive Pulmonary Disease (COPD), Heart Bypass Surgery, Heart Failure, Hip Replacement, Knee Replacement and Lung Cancer Surgery. For an unprecedented 23 years, residents of Orange County have chosen Hoag as one of the county's best hospitals in a local newspaper survey.

History

Hoag opened in 1952 as a community partnership between the Association of Presbyterian Members and the George Hoag Family Foundation, a private charitable foundation.

The George Hoag Family Foundation and the Association of Presbyterian Members represent the two founding organizations of the hospital and continue to provide leadership as corporate members of the Hoag Corporation. These members annually elect the Board of Directors, which consists of 17 members with representatives from the Hoag community and medical staff. The hospitals' Chief Executive Officer is also seated on the board as a voting member.

An annual meeting at the end of the fiscal year provides the corporate members the opportunity for the election/re-election of directors for the ensuing year.

Since its founding the hospital has welded a strong commitment to the community that it serves, including the provision of services for those who constitute a more vulnerable, at-risk population. Such care, for both inpatients and outpatients, is often only partially compensated. With excellence of management and the diligent stewardship of funds, Hoag has been able to sustain its financial strength. As a result, Hoag has been able to maintain a continuing commitment to quality of care while developing and expanding community programs and partnerships. Most of the funds expended upon Hoag's Community Benefit Program are from operating income.

For more information, visit www.hoag.org.

Mission, Vision, and Core Values

Hoag's Mission

Our mission as a nonprofit, faith-based hospital is to provide the highest quality health care services to the communities we serve.

Vision Statement

Hoag is a trusted and nationally recognized healthcare leader

Core Values

Excellence
Respect
Integrity
Patient Centeredness
Community Benefit

Hoag has identified six core strategies as a means to achieve our Vision and maintain our Mission and Values:

Quality and Service

Implement the Quality Management System to drive excellence throughout the organization.

People

Develop a performance-based and integrated culture of patients, physicians and staff.

Physician Partnerships

Create and maintain commitment to the Hoag community from exceptional doctors, through sustainable and satisfying leadership opportunities and mutually beneficial economic relationships.

Strategic Growth

Implement the continuum of care strategy to provide improved access, integration and experience and experiment with new business models to create sustainability for the future.

Financial Stewardship

Achieve enterprise wide growth and financial stability while directly reducing the cost of care.

Community Benefit and Philanthropy

Improve the health of vulnerable populations in Orange County.

Community Benefit Philosophy

We are encouraged by the better angels of our nature and the disposition of our hearts to think favorably of our fellows, regardless of their circumstances, and to serve them well: improving and sustaining their health and the quality of their lives and thus benefiting all.

The Department of Community Health provides direct services and collaborates with other not-for-profit community-based organizations to promote the health of our communities. The department coordinates Hoag's Community Benefit activities, driven by the health needs of our surrounding communities, which are regularly reviewed in an ongoing manner.

Hoag's Community Benefit Program is guided by five Core Principles:

1. *Emphasis on Disproportionate Unmet Health-Related Needs (DUHN)* - We concentrate on residents who have a high prevalence of severity for a particular health concern; and on residents with multiple health problems and limited access to timely high quality health care.
2. *Emphasis on Primary Prevention* – We focus on program activities that address the underlying causes of persistent health problems as part of a comprehensive strategy to improve health status and quality of life in local communities.
3. *Build a Seamless Continuum of Care* – We work to develop and sustain operational linkages between clinical services and community health improvement activities to manage chronic illnesses among uninsured and publicly insured populations.
4. *Build Community Capacity* – We target our charitable resources to mobilize and strengthen existing effective community health services.
5. *Emphasis on Collaborative Governance* – We emphasize *Networking* to exchange information; *Coordination* of synergistic activities; *Cooperation* in sharing resources; and *Collaboration* to enhance the combined capacity of our community health partners.

The department provides services which are unduplicated in the community. These currently include mental health services, case management, and the coordination of faith-based community nursing. In order to promote effective access to health care and related services, the department works in collaboration with a number of not-for-profit community based organizations to provide insurance coverage as well as free services to underserved and vulnerable residents, many of whom are undocumented. Charity care is an integral component of the benefit that Hoag provides to the community. The current hospital Charity Care and Self Pay Discount Policy provide assistance on a sliding scale for uninsured and self-pay patients with family incomes up to 400% of the Federal Poverty Level. The current Charity Care and Self-Pay Discount Policy is provided in Appendix A. Appendix B provides a summary of the quantifiable Community Benefit provided by Hoag in CY 2019 (January 1, 2019 to December 31, 2019). Appendix C provides a detailed breakdown of the Community Benefit expenditures by program.

Community Benefit Committee

The role of the Community Benefit Committee (“CBC”) is to establish, implement and monitor the policies and procedures that will provide the appropriate oversight and governance structure for the activities related to the Community Benefit Program at Hoag Memorial Hospital Presbyterian (“Hospital”).

The CBC is a Committee of the Hoag Memorial Hospital Presbyterian Board of Directors (the “Board”) and has the primary responsibility of ensuring that Hospital fulfills its moral and legal obligations to the community in serving the underserved and underprivileged through direct and indirect support of philanthropic health-related programs. CBC ensures that Hospital is in full compliance with federal and state regulations governing non-profit hospital organizations pertaining to community benefit and health-related activities.

The CBC ensures that Community Benefit activities are:

- Developed through engagement with community groups and local governmental officials in the identification and prioritization of community needs and to include mechanisms to evaluate the plan’s effectiveness.
- Aligned with the mission, vision and strategic objectives/initiatives of the Hospital,
- Consistent with the Hospital’s values and founding principles, and
- Developed with the input from Board, Administration and the Medical Staff leadership as appropriate.

The CBC is comprised of Hospital Board members and other members of the community and is supported by the senior management staff of the Community Health department.

Service Objectives

The service objectives of the Community Benefit program remain as initially defined:

- **Access:** To ensure adequate access to medical treatment through the availability of inpatient, outpatient and emergency medical services.
- **Services for Vulnerable Populations:** To provide health care services to uninsured, underinsured and indigent populations.
- **Education/Prevention:** To address the community health needs identified by the community health needs assessment through screening, prevention and programs.
- **Research:** To provide new treatments and technologies to the local community through participation in primary clinical research.
- **Collaboration:** To establish and participate in collaborations which address community health priorities.
- **Coordination:** To provide case management services which coordinate medical and social services for vulnerable community residents.

CHAPTER II: COMMUNITY HEALTH NEEDS ASSESSMENT 2017

Overview

Hoag has undertaken a Community Health Needs Assessment (CHNA) as required by state and federal law. California Senate Bill 697 and the Patient Protection and Affordable Care Act and IRS section 501(r)(3) direct tax-exempt hospitals to conduct a community health needs assessment and develop an Implementation Strategy every three years. This current CHNA was completed in 2017 for the 3-year period 2018-2020. Hoag's next CHNA will be completed in 2020. The CHNA is a primary tool used by the hospital to determine its community benefit plan, which outlines how it will give back to the community in the form of health and other community services to address unmet community health needs. This assessment incorporates components of primary data collection and secondary data analysis that focus on the health and social needs of the service area.

Service Area

Hoag Hospital Newport Beach is located at 1 Hoag Drive, Newport Beach, CA 92663.

Hoag Hospital Irvine is located at 16200 Sand Canyon Avenue, Irvine, CA 92618.

Hoag Orthopedic Institute is located at 16250 Sand Canyon Avenue, Irvine, CA 92618.

The Hospitals' service area is comprised of 27 cities/communities located in 53 zip codes. All of these zip codes are located in Orange County except for Long Beach (90803), which is in Los Angeles County. The community was determined by the zip codes of residence of the majority of patients who visited Hoag hospitals.

City	Zip Code	City	Zip Code
Aliso Viejo	92656	Midway City	92655
Corona Del Mar	92625	Mission Viejo	92691, 92692
Costa Mesa	92626, 92627	Newport Beach	92660, 92661, 92662, 92663
Dana Point	92629	Newport Coast	92657
Fountain Valley	92708	Orange	92866, 92867, 92868, 92869
Garden Grove	92843, 92844	Rancho Santa Margarita	92688
Huntington Beach	92646, 92647, 92648, 92649	Santa Ana	92701, 92703, 92704, 92705, 92706, 92707
Irvine	92602, 92603, 92604, 92606, 92612, 92614, 92617, 92618, 92620	Seal Beach	90740
Laguna Beach	92651	Sunset Beach	90742
Laguna Hills	92653	Trabuco Canyon	92679
Laguna Niguel	92677	Tustin	92780, 92782
Laguna Woods	92637	Villa Park	92861
Lake Forest	92630	Westminster	92683
Long Beach	90803		

Service Area Map

Joint CHNA

The IRS regulations allow for the conduct of joint Community Health Needs Assessments (CHNA) when hospitals define their service area communities the same. In compliance with these regulations, this CHNA was conducted jointly by Hoag Hospital Newport Beach, Hoag Hospital Irvine and Hoag Orthopedic Institute.

Project Oversight

The Community Health Needs Assessment process was overseen by:

Minzah Malik, MPH, MBA
Manager, Community Benefit Program
Community Health
Hoag Memorial Hospital Presbyterian

Lauren Tabios, MPH
Specialist, Grants & Special Projects
Community Health
Hoag Memorial Hospital Presbyterian

Consultant

Biel Consulting, Inc. conducted the Community Health Needs Assessment. Biel Consulting, Inc. is an independent consulting firm that works with hospitals, clinics and community-based nonprofit organizations. Dr. Melissa Biel conducted the Hoag Hospital Community Health Needs Assessment. She was joined by Sevanne Sarkis, JD, MHA, MEd, Sandra Humphrey and Denise Flanagan, BA. Biel Consulting, Inc. has extensive experience conducting hospital Community Health Needs Assessments and working with hospitals on developing, implementing, and evaluating community benefit programs. www.bielconsulting.com

Methodology

Secondary Data Collection

Secondary data were collected from a variety of local, county, and state sources to present community demographics, social and economic factors, health access, birth characteristics, leading causes of death, chronic disease, mental health, health behaviors, substance abuse and preventive practices. Analyses were conducted at the most local level possible for the service area, given the availability of the data. These data are presented in the context of Orange County and California State, framing the scope of an issue as it relates to the broader community.

Sources of data include: U.S. Census Bureau American Community Survey, California Health Interview Survey, California Department of Public Health, California Department of Education, California Employment Development Department, California Cancer Registry, California Office of Statewide Health Planning & Development, Community Commons, County Health Rankings, Orange County's Healthier Together, and others.

Secondary data for the hospital service area were collected and documented in data tables with narrative explanation. The tables present the data indicator, the geographic area represented, the data measurement (e.g. rate, number, or percent), county and state comparisons (when available), the data source, data year and an electronic link to the data source. Analysis of secondary data included an examination and reporting of health disparities for some health indicators. The report includes benchmark comparison data that measures Hoag Hospital's data findings with Healthy People 2020 objectives. Healthy People 2020 is a national initiative to improve the public's health by providing measurable objectives and goals that are applicable at national, state, and local levels.

Primary Data Collection

Targeted interviews and focus groups were used to gather information and opinions from persons who represent the broad interests of the community served by the hospital.

Interviews

Thirty-one (31) interviews were completed in December 2016 and January 2017. For the interviews, community stakeholders identified by Hoag Hospital were contacted and asked to participate in the needs assessment. Interviewees included individuals who are leaders and representatives of medically underserved, low-income, and minority populations, or local health or other departments or agencies that have current data or other information relevant to the health needs of the community served by the hospital facility. Input was obtained from Orange County Health Care Agency Public Health officials. At the beginning of each interview, the purpose of the interview in the context of the assessment was explained, the stakeholders were assured their responses would remain confidential, and consent to proceed was given.

Focus Groups

Three focus groups were conducted in January and February 2017 that engaged 50 persons. The focus group meetings were hosted by trusted community organizations. An agency contact was available to answer any questions at each focus group. At the beginning of each focus group, the purpose of the focus group and the community assessment were explained, the participants were assured their responses would not be attributed to them as responses would be aggregated. The focus group discussions were voice recorded for ease of documenting the discussion. Before beginning the discussion, the facilitator asked for oral consent from each of the participants that they wished to participate in the focus group and agreed to be voice recorded.

Initially, significant health needs were identified through a review of the secondary health data collected and analyzed prior to the interviews and focus groups. These data were then used to help guide the interviews and focus groups. The needs assessment interviews and focus groups were structured to obtain greater depth and richness of information and build on the secondary data review. During the data collection, participants were asked to identify the major health issues in the community, and socioeconomic, behavioral, environmental or clinical factors contributing to poor health. They were asked to share their perspectives on the issues, challenges and barriers relative to the significant health needs, and identify potential resources to address these health needs, such as services, programs and/or community efforts. The interviews and focus groups focused on these significant health needs:

- Access to Health Care
- Asthma
- Cancer
- Cardiovascular Disease
- Mental Health
- Overweight and Obesity
- Preventive Practices
- Substance Abuse

Analysis of the primary data occurred through a process that compared and combined responses to identify themes. All responses to each question were examined together and concepts and themes were then summarized to reflect the respondents' experiences and opinions. The results of the primary data collection were reviewed in conjunction with the secondary data. Primary data findings were used to corroborate the secondary data-defined health needs, serving as a confirming data source. The responses are included in the following Community Health Needs Assessment chapters.

Public Comment

In compliance with IRS regulations 501(r) for charitable hospitals, a hospital Community Health Needs Assessment (CHNA) and Implementation Strategy are to be made widely available to the public and public comment to be solicited. In compliance with these regulations, the previous Community Health Needs Assessment and Implementation Strategy were made widely available to the public on the website <https://www.hoag.org/about-hoag/community-benefit/reports/>. Public comment was requested on these reports. To date, no written comments have been received.

Priority Health Issues

Hoag Hospital hosted a community forum on February 28, 2017 in Newport Beach to prioritize the significant health needs. The forum engaged 35 community leaders in public health, government agencies, schools, and nonprofit organizations that serve the medically underserved, low-income, and minority populations in the community. These individuals have current data or other information relevant to the health needs of the community served by the hospital facilities. A list of the participants can be found in Attachment 3.

Priority Setting Process

A review of the significant health needs was presented at the community forum. The forum attendees were then engaged in a process to prioritize the health needs using the Relative Worth method. The Relative Worth method is a ranking strategy where each participant received a fixed number of points; in this case 100 points (5 dots equaled 100 points, where each dot was worth 20 points). Instructions were given, and the criteria for assigning points were explained. The points were assigned to health needs based on the size of the problem (relative portion of population afflicted by the problem); or seriousness of the problem (impact at individual, family, and community levels).

The points could be distributed among the health needs in a number of ways:

- Give all points to a single, very important item
- Distribute points evenly among all items (if none is larger or more serious than another)
- Distribute some points to some items, no points to other items

In the tabulation, the health needs were ranked in priority order according to the total points the group assigned. The top three ranked priority needs were: economic insecurity/housing/homelessness/transportation, mental health and access to care.

Community Health Needs Prioritized by CHNA
1. Economic insecurity/housing/homelessness/transportation
2. Mental health
3. Access to health care
4. Preventive practices
5. Substance abuse
6. Overweight and obesity/Diabetes
7. Cancer
8. Cardiovascular disease
9. Asthma

Participants engaged in a group discussion about the priority areas and were asked to discuss the following questions for the high priority areas:

- For priority issues, what is going well? What works in the community to address this issue?
- Who has plans to work on these issues over the next year?

The information gathered from the community forum will be used for decision making in creation of the Implementation Strategy.

Impact Evaluation

In 2015, Hoag Hospital conducted their previous Community Health Needs Assessment (CHNA). Significant health needs were identified from issues supported by primary and secondary data sources gathered for the Community Health Needs Assessment. In developing the hospitals' Implementation Strategies associated with the 2015 CHNA, Hoag Hospital Newport Beach and Hoag Hospital Irvine chose to address access to health care, chronic disease management, mental health and preventive care through a commitment of community benefit programs and resources. Hoag Orthopedic Institute focused its Implementation Strategy on arthritis and osteoporosis. The evaluation of the impact of actions the hospitals used to address these significant health needs can be found in Attachment 4.

Regional Priority

As part of the definitive agreement for the St. Joseph Health Hoag (SJHH) affiliation, a commitment was made to reduce health disparities in the communities we serve. In 2016, a regional SJHH health disparities needs assessment was completed and a plan approved in 2017 to address the disparities. One of the plan action steps is the identification of a regional priority for SJHH to address the issue of education equity in our communities. This priority will be incorporated in the SJHH Community Benefit Strategy and Implementation Plan for 2018-2020.

Implementation Strategy 2018-2020

Implementation Strategy Development

The Implementation Strategy was developed with input from the hospital Community Benefit Committee and the Department of Community Health. The following criteria were used to determine which significant health needs Hoag hospital facilities will address in the Implementation Strategy:

- **Organizational Capacity:** There is capacity to address the issue.
- **Existing Infrastructure:** There are programs, systems, staff and support resources in place to address the issue.
- **Ongoing Investment:** Existing resources are committed to the issue. Staff time and financial resources for this issue are counted as part of our community benefit effort.
- **Focus Area:** Has acknowledged competencies and expertise to address the issue and the issue fits with the organizational mission.

As a result of the review of needs and application of the above criteria, Hoag will address: access to care; economic security; mental health; chronic disease prevention, including obesity prevention and chronic disease management, through a commitment of community benefit programs and charitable resources.

Access to Care

Access to health care affects a person's health and well-being. Reliable access to health services can prevent disease and disability, reduce premature death and increase quality of life. Health insurance coverage is considered a key component to accessing health care. The service area insurance rate is 84.7%. In Orange County, 49.9% of the population has employment-based health insurance; 19.4% are covered by Medi-Cal and 11.3% of the population has coverage that includes Medicare. Delayed care may also indicate reduced access to care; 11.3% of Orange County residents reported delaying or not seeking medical care and 10.8% reported delaying or not getting their prescription medication in the last 12 months.

Community input on access to care indicated that while more persons now have insurance coverage as a result of the Affordable Care Act, insurance copays are high and necessary care isn't always covered. Many people may access care in the ED because they do not have a primary physician who can see them in a timely manner.

Chronic Disease

Chronic disease encompasses a wide range of health issues including, arthritis, diabetes, cardiovascular disease, cancer and asthma, among others. In Orange County, cancer, heart disease and Alzheimer's disease were the top three leading causes of death (age-adjusted, 2011-2013). Diabetes is a growing concern in the community; 7.1% of adults in Orange County have

been diagnosed with diabetes, and 9.2% have been diagnosed as pre-diabetic. In Orange County, 10.7% of the population has been diagnosed with asthma in their lifetime. 93.2% have had symptoms in the past year, and 48.9% take daily medication to control their asthma. Among Orange County youth, 17.2% have been diagnosed with asthma in their lifetime, 39.6% have visited the ER as a result of their asthma, and 60.1% take daily medication to control their asthma.

Community stakeholders noted that living in poverty is a big stressor that leads to chronic diseases. There is a lack of access to preventive practices. People don't have time for exercise and they do not have access to fresh fruits and vegetables. Being overweight has a tremendous impact on chronic disease. Policies are needed on land use, access to fruit and vegetables, and environments that are safe to be physically active in. This will impact the root causes of chronic diseases. There needs to be an emphasis on prevention and lifestyle changes to reduce chronic diseases.

Economic Security

Education, adequate employment and housing are components that provide a level of economic security for individuals and families. Among area residents, 12.5% are at or below 100% of the federal poverty level (FPL) and 28.8% are at 200% of FPL or below (low-income). Examining poverty levels by age group indicates that 16.4% of children in the service area live in poverty and 8.7% of seniors live in poverty. In the service area, the high school graduation rate is 92%. Of the population age 25 and over, 15.3% in the service area have not attained a high school diploma.

Stakeholders noted that poverty, poor housing, racism, lack of education and unemployment all impact the health of the community. There are socioeconomic disparities in Orange County, which result in low-income populations who lack adequate health care coverage, housing and education. Inadequate transportation in Orange County impacts individuals' ability to access jobs, health care and social service resources.

Mental Health

Mental illness is a common cause of disability and may result in individuals at-risk for substance abuse and violent behavior. In Orange County, 6.3% of adults experienced serious psychological distress in the past year. Among adults, 9.9% saw a health care provider for emotional, mental health, alcohol or drug issues, however, 55.3% of those who sought or needed help did not receive treatment. In Orange County, 33.1% of teens needed help for an emotional or mental health problem.

Community stakeholders shared that among refugees mental health is a taboo topic. There are gaps in resources for people with mental health issues, including an access barrier for people of different cultures and languages. Mental health issues are underdiagnosed in the poorest populations and there is a lack of quality services addressing these needs. In Orange County, there are not enough areas to admit patients in psychiatric crisis or enough places to go for care. Patients continue to worsen and the only place to go is the ED because they are gravely disabled, homicidal or suicidal.

Prioritized Community Health Needs	Needs Selected by the Hospitals	Criteria for Selecting Needs	Needs Not Selected
<ul style="list-style-type: none"> • Economic Security: Housing, Homelessness, Transportation • Mental Health • Access to Health Care • Preventive Practices • Substance Abuse • Overweight and Obesity • Cancer • Cardiovascular Disease • Asthma 	<ul style="list-style-type: none"> • Economic Security: Housing, Homelessness, Transportation • Mental Health • Access to care • Prevention and Management of Chronic Disease (Includes Overweight and Obesity) 	<ul style="list-style-type: none"> • Organizational Capacity • Existing Infrastructure/Partnerships • Ongoing Investment • Focus Area 	<ul style="list-style-type: none"> • Substance Abuse

Hoag’s Implementation Strategy

The Implementation Strategy was developed with input from the Community Benefit Committee and the Department of Community Health. For each health need the hospitals plan to address, the Implementation Strategy describes: actions the hospitals intend to take, including programs and resources it plans to commit; anticipated impacts on these actions; and planned collaboration with other organizations.

Health Need: Economic Security
Strategies
<ol style="list-style-type: none"> 1) Research the existing organizations and resources available (i.e. housing, homelessness, transportation, career development) to identify community assets and gaps. (HHNB, HHI) 2) Provide funding and/or in-kind support to community nonprofit organizations that focus on economic security measures. (HHNB, HHI)¹ 3) Build community capacity by providing collaborative partners with space and resources at the Melinda Hoag Smith Center for Healthy Living. (HHNB, HHI)
Expected Outcomes for this health need
<ul style="list-style-type: none"> • Increase access to supportive services for individuals and families to help them maintain stability and self-sufficiency. • Leverage Hoag assets to build capacity among community organizations to improve food, housing, employment and education among at-risk populations.

¹ Indicates each hospital’s particular role in taking action to address the significant health needs: HNB = Hoag Newport Beach; HI = Hoag Irvine; HOI = Hoag Orthopedic Institute.

Health Need: Mental Health
Strategies
<ol style="list-style-type: none"> 1) Provide mental health care services through Hoag’s Mental Health Center primarily focused on the low-income population. (HHNB, HHI) 2) Provide funding and/or in-kind support to community nonprofit organizations that focus on mental health that goes beyond our scope of care. (HHNB, HHI) 3) Provide workforce development opportunities (internships, internal and external professional development). (HHNB, HHI) 4) Use existing pathways to expand our continuum of care. (HHNB, HHI)
Expected Outcomes for this health need
<ul style="list-style-type: none"> • Increase access and remove barriers to mental health care services in community settings. • Provide bilingual, bicultural mental health care services to people who otherwise could not obtain mental health services. • Bridge gaps, improve referrals and increase coordination among mental health care providers and community resources and programs. • Leverage Hoag assets to build capacity among community clinics and community organizations to improve access to mental health care.

Health Need: Access to Care
Strategies
<ol style="list-style-type: none"> 1) Provide financial assistance through free and discounted care for health care services, consistent with the hospital’s financial assistance policy. (HHNB, HHI) 2) Offer information and enrollment assistance for no cost and low-cost insurance programs. (HHNB, HHI) 3) Provide funding and/or in-kind support to community clinics. (HHNB, HHI) 4) Provide in-kind support to community clinics for orthopedic surgeries. (HOI) 5) Provide funding and/or in-kind support to community nonprofit organizations that reduce barriers to accessing care. (HHNB, HHI) 6) Provide partners with space and resources at the Melinda Hoag Smith Center for Healthy Living. (HHNB, HHI) 7) Provide transportation support for seniors to increase access to health care services. (HHNB, HHI)
Expected Outcomes for this health need
<ul style="list-style-type: none"> • Increase access to primary health care and a medical home. • Bridge gaps, improve referrals and increase coordination among health care providers and community resources and programs. • Leverage Hoag assets to build capacity among community clinics and community organizations to improve access to health care.

Health Need: Prevention of Chronic Disease and Management
Strategies
<ol style="list-style-type: none"> 1) Provide funding and/or in-kind support to community clinics. (HHNB, HHI) 2) Provide funding and/or in-kind support to community nonprofit organizations that focus on disease prevention, including obesity prevention and chronic disease management. (HHNB, HHI) 3) Provide partners with space and resources at the Melinda Hoag Smith Center for Healthy Living. (HHNB, HHI) 4) Offer chronic disease prevention, management, education, screenings and support groups. (HHNB, HHI) 5) Support the Faith Community Nursing Program to provide wellness and prevention programs among congregations in Orange County. (HHNB, HHI) 6) In partnership with Mary & Dick Allen Diabetes Center, provide comprehensive diabetes prevention and treatment services, obesity prevention, and pediatric specialty care for children with diabetes. (HHNB, HHI) 7) Promote bone health in community to maintain an active lifestyle. (HOI) 8) Provide funding and/or in-kind support for Wellness Initiative. (HOI)
Expected Outcomes for this health need
<ul style="list-style-type: none"> • Improve individuals' compliance with chronic disease prevention and management recommendations. • Increase community awareness of disease prevention strategies. • Leverage Hoag assets to build capacity among community clinics and community organizations to improve chronic disease management among at-risk populations. • Provide access to needed health promotion resources for vulnerable populations at-risk for or suffering with chronic diseases. • Maintain and expand Own the Bone program. • Continue Fall Risk Assessments at health fairs. • Continue health education efforts – e.g. public school presentations, community lectures, on-line education. • Continue physician and healthcare provider education.

Regional Initiative

In addition to Hoag’s individual hospital priority health needs and strategies, Hoag will include a focus on education equity, as part of Providence St. Joseph Hoag Health’s regional community need to be addressed. The initiative on regional education equity will focus on low income populations, with the goal of reducing the education achievement gap in the schools. Hoag’s strategy will be to identify and participate in local collaboratives, engaging with existing collaborative partners in developing a plan to improve Early Development Index scores.

Planned Collaboration

To accomplish these strategies Hoag will collaborate with community partners. Sharing resources and enhancing the capacity of partner organizations supports the achievements of our goals. Potential collaborative partners include, but are not limited to:

Advocacy Groups	Community Health Centers and community clinics
Community-based organizations	Faith based organizations
Family Resource Centers	Mental Health Associations
Orange County Health Care Agency	School districts and schools
Local Food Banks	Senior centers and adult day centers

Evaluation of Impact

Hoag will monitor and evaluate the programs and activities outlined above. The hospitals anticipate the actions taken to address significant health needs will improve health knowledge, increase wellness behaviors; increase access to health and mental health care; and support self-sufficiency among vulnerable populations. The hospital is committed to monitoring key initiatives to assess impact and has implemented a system that tracks the implementation of the activities and documents the anticipated impact.

The reporting process includes the collection and documentation of tracking measures, such as the number of people reached/served, increases in knowledge or changes in behavior as a result of planned strategies, and collaborative efforts to address health needs. An evaluation of the impact of the hospitals’ actions to address these significant health needs will be reported in the next scheduled CHNA.

CHAPTER III: DEPARTMENT OF COMMUNITY HEALTH PROGRAMS

The department of Community Health provides direct Community Benefit service programs and coordinates Community Benefit reporting at Hoag Hospital. This section of the report provides information for each of the Community Health programs and achievements in CY 2019 (12 months): January 1, 2019 - December 31, 2019.

Mental Health Center

The Mental Health Center was created to provide bilingual bicultural services to people who otherwise could not obtain mental health services. The majority of the clients are low-income, uninsured and highly vulnerable and present with a mild to moderate level of distress/symptomatology. These clients have limited health insurance with no mental health/behavioral health benefits or they have benefits but cannot afford the co-payments and/or deductibles.

During CY19, the program employed six full-time, one part time and two per diem bilingual Master's prepared social workers, 5 of the staff are licensed. These social workers provided mental health services to 723 clients in the form of psychotherapy. Resource brokering, and/or case management was provided to 129 individuals. In addition, the program offered psychotherapeutic, psycho educational groups and community presentations which resulted in 805 encounters. All services were offered on a voluntary basis. Services were offered on a low-cost sliding scale. The sliding scale starts at zero (free services) and increases according to the individual's self-reported annual income level. The vast majority of people were seen at no charge or at a nominal fee per session. A review of client demographics found that the majority of the clients seen through the Mental Health Center were female, Hispanic, and indicated a language other than English as their primary language. 49.83% of our clients reported having an annual household income below \$40,000 and 22% reported an income below \$ 10,000. The program has proven to be highly efficient and effective. The program utilized a clinical assessment tool (DASS) to measure levels of depression, anxiety, and stress in clients. According to pre and post test scores, clients who participated in either individual or group psychotherapy saw a statistically significant decline in depression, anxiety, and stress scores. The program also implemented a self-esteem assessment tool (Rosenberg) on a pre and posttest basis. Across the board for individual and group psychotherapy, there was statistically significant improvement in self-esteem.

In addition to direct mental health services to the community we also provided professional development trainings to mental health professionals for free. A sampling of the trainings offered included: ASIST for suicide assessment and intervention, ACES Interface, NAMI Provider training and Law and Ethics. The number of professionals trained for CY19 was 1,511.

In CY19, the Mental Health Center provided a supervised clinical internship training program for 8 MSW (Master of Social Work) students. The center collaborates with the University of Southern California, California State University at Fullerton and California State University at

Dominguez Hills and California State University at Long Beach. Each intern was provided with weekly one hour long supervision and one and a half hour long group supervision. The internship program includes providing consultation, support, and education to paraprofessionals at partner agencies such as Girls Incorporated and the Newport Mesa Unified School District. This support included telephone consultation, workshops, and in-service education. In CY19 we took on yoga therapy interns in collaboration with Be The Change Yoga and Alcheme Yoga Therapy. We successfully trained two interns. Next year, we will be taking up to 6 yoga therapy interns from approximately November to May.

In addition to support for the staff of partner agencies, the Mental Health Center offered several different psychotherapeutic and psycho educational groups and workshops for the partner agency clients. These efforts allowed our partner agencies to offer mental health services at no cost to their clientele and all services are provided in-kind to the not-for-profit agencies. Some examples include: ACES Interface, depression support groups, self-esteem groups, and stress management workshops. Group sessions were also offered for parents, families, and adult couples struggling with relationship issues.

Community Benefit Grants Program

Hoag's Community Benefit Grants Program serves to reinforce Hoag's mission as a non-profit, faith-based hospital, providing the highest quality health care services to the community. The Community Benefit Grants Program focuses on meeting the unique needs of Orange County residents, with particular emphasis upon the disadvantaged and underserved. The program provides grants to community organizations who strive to meet the health and social service related needs of the Orange County community. Beginning in 2019, the opportunity to apply for a grant was made to pre-identified organizations. Invitations to apply will be extended to organizations that meet eligibility requirements and have established their ability to demonstrate positive outcomes.

The eligibility criteria include:

- Organization must have operations in Orange County, CA
- Must be 501(c)(3) tax exempt organization, local government entity, or education institution
- Services are provided to disadvantaged and/or underserved populations
- Services must align with at least one of the four priority areas listed below
- Services are provided within the geographic boundaries of Orange County, CA

The Priority Focus Areas are determined by the Community Health Needs Assessment, conducted every three years. The needs are identified first through secondary data for the county, and then narrowed to significant health needs using input from persons representing the broad interests of

the community, as well as persons with special knowledge or expertise in public health. The significant health needs are then prioritized into the Priority Focus Areas that the hospital will plan on addressing through programming and services. The Priority Focus Areas for the Community Benefit Grants Program CY19 were:

1. Access to Care for Vulnerable Populations
2. Economic Security
3. Mental Health
4. Prevention of Chronic Disease and Management

CY19 included a 12-month grant cycle from January 1, 2019 – December 31, 2019. Funds must be used specifically for the designated program outlined in the grant application. Organizations that do receive funding are required to submit a progress report, as well as a final outcomes report.

During CY19, 82 grants were funded, with the following breakdown for the Priority Focus Areas:

Priority Area	Grant Count
Access to Care for Vulnerable Populations	20
Economic Security	27
Mental Health	19
Prevention of Chronic Disease Management	16
Grand Total	82

Health Ministries

The Hoag Health Ministries Faith Community Nursing (FCN) program is integral in supporting Hoag's mission as a faith-based hospital. Seventy-five primarily volunteer FCNs are providing professional nursing services at 50 congregations throughout Orange County. The Hoag Health Ministries program has provided leadership and training to the community-based RNs for over 30 years.

Each FCN works independently within his/her congregation in creating individual and population health based preventive health programs specific to the needs, beliefs, and practices unique to their faith traditions. All denominations are welcome to participate in this spiritually centered wellness program, which seeks to incorporate a balance of the mind, body, and spirit. Hoag's program also serves as a role model for other Health Ministries - FCN programs throughout the western state region, and has participated in national and international health care training initiatives.

In CY19, the FCN program added three new churches and one Muslim school, bringing a total to 50 faith based partnerships within Orange County. Within those partnerships, 75 faith community nurses actively served ten denominations. The faith community nurses donated almost 12,000 hours at the local, national and international level. They touched the lives of more than 50,000 congregants, providing services that included individual case management and support group services such as: home visits, hospital visits, medical appointments, and medication review. Over 1000 individual consultations were provided in CY19.

In CY19, Clinical Nurse Health and Wellness Coaching was added to the roster of services available at the Melinda Hoag Smith Center for Healthy Living. The program is designed for individuals living with one or more chronic conditions seeking improved health. The coach-client relationship is a partnership whereby the nurse coach assists client in determining and achieving their self-determined health goals.

The FCN program hosted multiple events and workshops in CY19. Annual clinical services include flu vaccine clinics, CPR training, blood pressure screenings and blood drives. The FCN nurses administered and hosted:

- 9,047 flu vaccine doses to faith members and the community
- 225 individuals who received life-saving AED/CPR training
- 887 blood pressure screenings and wellness education to individuals
- 441 units of donated blood

Educational Outreach and support in CY19 included:

- 107 newsletters written
- Spiritually based Alzheimer's Education Classes that served 123 individuals
- FCN led courses attended by 2,117 individuals covering topics that included mental health, tai chi, chair exercise, devotions, diabetes, senior housing, parenting, etc.
- Support groups on Caregiving and Grief and Loss served 1,040 individuals
- 28 RNs completed 36 CEUs in the Foundations of Faith Community Nursing
- FCNs completed 463 hours of Continuing Education

- Hosted the annual Spirituality Conference with 200 attendees
- 85 RNs attended the Faith Community Nurse Regional Summit
- Established quarterly conference calls linking west coast Faith Community leaders from AK, WA, OR, NV, AZ.

Project Wipeout

Project Wipeout was created to provide beach and water safety information to the nearby beach communities after seeing an increased incidence of spinal cord injuries in the Hoag Newport Beach Emergency Department. The program was developed to provide education highlighting prevention of spine injuries. Over time, education efforts have transitioned towards beach and water safety and overall injury prevention for both beach safety service providers and the general public. Its mission has evolved to inspire water safety culture at the beach and beyond through education and community outreach. Education topics include drowning prevention, rip current safety and escape, marine animal behavior and safety, beach hazards, best practices in the water, and sun protection.

Project Wipeout partners and collaborates with members of the beach safety community, which includes the lifeguard and fire department for the county and city agencies throughout Orange County, the California Surf Life Saving Association and other lifesaving agencies. Additionally, Project Wipeout works closely with the Orange County Lifeguard Chiefs Association, the Orange County Drowning Prevention Taskforce, and other county-wide collaboratives. In CY2019, Project Wipeout launched partnerships with the cities of Irvine and Newport Beach, as well as with multiple nonprofit organizations. At the national level, Project Wipeout has started to collaborate with the United States Lifesaving Association. Globally, Project Wipeout has gained recognition as a drowning prevention entity, participating in the National Drowning Prevention Alliance's International Rip Current Symposium.

Program highlights from CY19:

Lifeguard Symposium

In CY19 Stub, Project Wipeout hosted the 40th Annual Lifeguard Education Symposium, with over 375 attendees, which included lifeguards and fire personnel from all over Orange County. CY19 marked the expansion of live streaming the conference to different sites: Seal Beach, Laguna Beach, and San Clemente. An additional 125 lifeguards and life-saving personnel viewed the live stream at the additional live stream locations. The conference continues to grow each year, and serves as an opportunity for lifeguards and other first response service providers to receive education on current beach and water safety information, that can be integrated into their training and safety responses. Additionally, the conference intends to address health and wellness topics pertinent to beach exposures for personnel working and responding on the beach, as well as professional development in the field.

Public Education Grants

Project Wipeout piloted a micro-grant opportunity for Orange County Lifeguard Agencies in CY2019. The pilot provided programmatic support to specific agencies who completed an application and evaluation plan for a specific program. Three lifeguard agencies were awarded: Newport Beach, Crystal Cove State Parks, and Laguna Beach.

Southern California Water Safety Summit

During CY2019, Project Wipeout and the Ben Carlson Memorial and Scholarship Foundation co-hosted the inaugural Southern California Water Safety Summit. The Summit consisted of a one-day conference designed to be a forum for collaboration on practices, programs, and policy that reduce drowning and aquatic injuries in our community. Over 140 water safety advocates and professionals attended, representative of several CA counties, as well as AZ, WA, ID, UT, and NY. Additionally, the conference included 25 different speakers, with sessions on the following topics: drowning data, programs and interventions to prevent drowning and aquatic injury, open water drowning and safety, and messaging and communications for water safety.

Major takeaways from the summit included a strong desire from multiple stakeholders to engage in meaningful discussions on future policy proposals to prevent drowning and aquatic injury, motivation to increase formal or informal statewide collaboration on drowning prevention and water safety, and unified efforts to improve the collection of data at the local and state level to improve drowning prevention and water safety promotion efforts.

Outreach Events

During CY19 Stub, Project Wipeout's main community outreach took place at the Melinda Hoag Smith Center for Healthy Living Family Health Day, Imaginology, as well as at smaller city community events. Encounters at these events consist of personal interactions between lifeguards, educators, children, and families that included distribution of beach safety materials and activities. In addition to these large events, Project Wipeout materials are used by local lifeguards at each agency's headquarters, both as education materials for beach visitors and as training for the junior guard programs. Some beach restaurants even adopted Project Wipeout education materials as part of their restaurant's dine-in materials for kids. Materials are available in both English and Spanish, and have been previously sent out nationally and internationally, as teaching tools for different water safety agencies outside of California, such as within New Zealand and Baja California. All materials are available to download for free from the Hoag Project Wipeout website: www.hoag.org/projectwipeout.

Melinda Hoag Smith Center for Health Living

The city of Costa Mesa has been identified as a resource desert due to an absence of sufficient resources to address key health determinants in the community. In order to help address these health determinants in our community, Hoag created a synergistic model of service delivery, which not only addresses the lack of resources but also seeks to bridge gaps between services. This service delivery model has helped facilitate collaboration and build capacity in our community partner agencies, by providing non-profit partners with physical space and resources within the Melinda Hoag Smith Center for Healthy Living.

The Melinda Hoag Smith Center for Healthy Living (MHSCHL) is a robust one-stop shop of interconnected and supportive services that promote health and well-being. The Center houses a wide variety of non-profit partner agencies and the programs that address key issues affecting the health of our community. A key component which makes the collaborative unique and is essentially the glue between the community and the center, is our centralized registration and case management team. This team assures that all client's coming into the center fill out a screener which seeks to identify; socio-economic stressors, potential health risks, mental and emotional health issues, legal issues, access to health care, and other life stressors that can affect one's quality of life. Our case-management team plays a critical role in linking clients to the appropriate services, while also monitoring client's progression through the referral process.

Since opening in 2016 our collaborative has grown to include, but not limited to, the following:

Hoag's Mental Health Center	Alzheimer's OC
Hoag's Health Ministries	Orange County Council on Aging
Hoag's Promotora Program	Big Brothers Big Sisters
SOS Children & Family Health Center	Serving People in Need
SOS Dr. Robert & Dorothy Beauchamp Child and Family Dental Center	Community for Innovation, Entrepreneurship, Leadership & Opportunities (CIELO)
Public Law Center	Children's Health Connection
National Alliance for the Mentally Ill	Project Self Sufficiency
Be the Change Yoga	MOMs Orange County
CHOC PODER	Human Options
Susan G. Komen OC	Girls Inc.
Council on Aging OC	Children's Bureau
Project Youth/OC Bar Foundation	Cancer Kinship
Newport Mesa Family Resource Center	Orange County United Way

In addition to our case managers, we have our Promotoras (community health workers) who are community experts who teach and engage residents on a peer level. Promotoras have found strategic tools such as door to door outreach, outreach at community events (i.e. churches, soccer games, school campuses, laundromats, etc.), peer led support groups, and workshops to reach out to community members.

This model of service delivery helps bridge gaps between community, clients and agencies, while also leveraging resources and fostering collaboration between organizations. In CY 2019, 2479 individuals and/or families registered as members or inquired about services and were linked to appropriate agencies through our case manager support team. Other 2019 highlights include:

Life skills and youth support services

- 405 individuals were CPR certified. This helped for job security and job placement for several nannies, child care workers, and preschool teachers
- 698 adults participated in Cielo’s entrepreneurship/ job readiness classes
- 125 Single parents received services with Project Self-Sufficiency
- 156 homeless individuals and/or families received services through SPIN (Serving People in Need)
- 1,722 encounters for Girls Inc’s after school homework and STEM activities (boys and girls)

Health driven classes focusing on improved health and decrease in obesity

- 7,311 encounters for yoga, Zumba and other fitness classes
- 297 encounters for children participated in ballet classes
- 1650 encounters for children participated in Amigitos/Zumbini
- 199 CHOC PODER classes
- 896 encounters for youth hip hop

Education and support to individuals and families affected by mental illness

- 1,007 individuals participated in a NAMI class/support group
- 9,338 individuals had a community encounter with a Promotora
- 462 individuals were either visited at home or met with a Promotora onsite to discuss mental health services

Legal Aid and Representation

- 419 individuals have received legal consultation or representation from the Public Law Center, focusing on Family Law – divorce, DV, child custody etc.

Professional Development Trainings

Approximately 1,163 professionals participated in the following trainings hosted by the MHSCHL.

- EMDR Part I and II
- Adverse Childhood Experiences
- Mental Health First Aid
- Nutrition and Mental Health Disorders
- Law and Ethics
- Social Work and Me

CHAPTER IV: OTHER HOAG COMMUNITY BENEFIT ACTIVITIES

The Mary & Dick Allen Diabetes Center

An estimated 57% of our primary service area is impacted by diabetes or pre-diabetes. According to the American Diabetes Association, the number of those affected by diabetes and the related costs, are expected to double by 2030. In an effort to meet the needs of these patients, the Mary & Dick Allen Diabetes Center was opened in 2009 and has offered services that include health Education and support from certified diabetes educators, nurses, dietitians, and clinical social workers, medication management by pharmacist educator and nurses, and clinical evaluation by the endocrinologist. The Center participated in various outreach events at local senior centers, diabetes risk assessments at health fairs, and cooking demonstrations in the community. Some of our highlight for calendar year 2019 are listed below:

Program highlights from CY19

- 1) Tele-health education classes offered to Mother's with gestational diabetes
- 2) In partnership with PADRE Foundation, peer support groups for youth/young adults with T1D and families offered quarterly
- 3) Peer support groups for T2DM offered monthly
- 4) Diabetes Prevention Program offered (Healthy Lifestyle Program for those with Prediabetes)
- 5) Free psychosocial consults (with a licensed social worker) for all patients with diabetes

Behavioral Research Program

The Center pursued various research studies in 2019 lead by Harsimran Singh, PhD, clinical research scientist and health psychologist. The Center's research studies have been published in 6 peer-reviewed publications and scientific journals, and Dr. Singh has presented 8 scientific presentations including conferences hosted by the Society of Behavioral Medicine, and the American Association of Diabetes Educators. Topics covered a wide range in diabetes including clinical and psychological health in Hispanic women with pre-diabetes, value of psychosocial health in pregnancy with diabetes, assessing the needs of a diverse community of people with type 2 diabetes in terms of health education, and preparing patients psychologically for their visit with their diabetes care team.

Diabetes Self-Management Education and Support (DSMES)

Diabetes Self-Management Education and Support (DSMES) and Medical Nutrition Therapy (MNT) are the core functions of the Center in which participants learn to live successfully with diabetes through guidance from our dedicated physician, certified diabetes educators, nurses, dietitians, and clinical social worker. In CY19, there were over 2,700 patient encounters. A subset of 400 patients receiving DSMES services were offered access to a social worker to provide additional clinical support related to psychosocial barriers which are impeding healthier lifestyle choices at no cost to patients as part of DSMES.

Ueberroth Family Program for Women with Diabetes (Sweet Success)

Expectant mothers with diabetes prior to pregnancy and those diagnosed with gestational diabetes, who are at higher risk of developing Type 2 diabetes after pregnancy, benefit from pre-conception family planning, diabetes education, as well as ante-partum and post-partum glucose management. In CY19, we had a total of 2,900 encounters completed at the Center. The Center offers free oral glucose tolerance testing (OGTT) 4-12 weeks postpartum. In 2019, 670 patients came to receive their OGTT at the Center.

CHOC Children's Services at the Allen Diabetes Center

Children's Hospital of Orange County (CHOC) Diabetes and Endocrine Center at the Allen Diabetes Center provides pediatric specialty care services for patients with diabetes. This program provides clinical services, health maintenance and treatment, and outreach for children considered at risk for developing diabetes. In CY19, there were more than 2,400 clinical encounters. Prevention of Obesity and Diabetes through Education Resources (PODER) offers no-cost diabetes and obesity prevention education programs, cooking classes and Zumba exercise classes. PADRE (Pediatric Adolescent Diabetes Research Education Foundation) provides support to children with Type 1 diabetes and to their families through events and educational workshops. Over 5,000 participants joined the PODER classes, and 342 participants were involved in the PADRE classes.

Herbert Family Program for Young Adults with Type 1 Diabetes

The Herbert Family Program focuses on catering to the unique needs of young adults with Type 1 Diabetes (ages 18-30). The program addresses various aspects including the financial, psychological, social and physical changes that challenge the young adult, their family, and support systems. We hosted First Fridays with a consistent attendance of 10-15 emerging adults in which these are held monthly.

Outreach Events

Approximately 800 people participated in the Sweet Life cooking classes. During these classes, an educator and Hoag's Executive Chef provided insight on recipes and nutrition to promote healthy eating for our community. Our educators have participated in various outreach opportunities including the following: health fairs, presentations at senior centers, risk assessment tests, grocery store tours, and cooking demonstrations.

OB Education

Hoag’s philosophy is that with the birth of every child, there is also the birth of a new family. Through a variety of educational classes and support services Hoag’s OB Education department supports families throughout the journey of pregnancy and parenthood. Registered Nurses who are International Board-Certified Lactation Consultants (RN, IBCLC’s), support new couples and their infants with breastfeeding while in the hospital following delivery and in our outpatient breastfeeding clinic. We provide inpatient breastfeeding consultations 365 days per year and outpatient consultations in our breastfeeding clinic Monday through Friday from 9am to 4pm.

Our RN IBCLC’s teach a comprehensive selection of prenatal classes including: Prepared Childbirth, Breastfeeding, Baby Care Basics, Pre-Birth Boot Camp, Baby Saver-Infant First Aid and CPR, and Multiple Miracles, which is a class for mother’s expecting twins, triplets, quadruplets and more. Several other programs are offered at no cost to the community and include car seat safety, 4th Trimester class, Maternity Orientation/Beyond Baby Basics and online breastfeeding education.

OB Education has partnered with the Hoag Center for Wellness to promote pelvic health and maternal mental health through the post-partum period. The pelvic floor care class is taught by a Licensed Physical Therapist that is specially trained in female pelvic floor issues.

Hoag’s Community Benefit program promotes community mental health through support of a weekly Post-Partum Adjustment and Perinatal Loss group and a biweekly Pregnancy after Loss group. These groups are free of charge and are facilitated by a Licensed Clinical Social Worker, LCSW, whose professional fees are funded by the Community Benefit program. They provide ongoing support, education, and a safe setting for participants to be able to discuss the new challenges of parenthood.

Support persons and babies are encouraged to participate in all programs. In addition, the Community Benefit program provides breastfeeding supplies for women assisted in the OB Education’s outpatient breastfeeding clinic.

Hoag’s BabyLine is an information telephone hotline for new parents. An OB Education RN, IBCLC answers questions from callers regarding pregnancy, newborn care, and breastfeeding. It is a key resource for new and expectant parents. The BabyLine is available to the community Monday through Friday from 9:00am – 5:00pm and received over 15,000 calls for the year ended 2019.

Summary of Classes and Services provided by the OB Education Department in FY2019

Class	Attendance
Baby Care	1072
Baby Saver	1220
Breastfeeding	945
Car Seat Safety	809

4 th Trimester	95
Maternity Orientation	2659
Multiple Miracles (<i>offered quarterly</i>)	25
Prepared Childbirth	867
Pre-Birth Boot Camp for Couples (<i>new class offered 2 times</i>)	142
Breastfeeding Clinic Visits (<i>outpatient</i>)	1,297
Baby Line telephone calls	15,103
Postpartum Support Groups: Postpartum Adjustment, Perinatal Loss, & Pregnancy after Loss Groups (<i>funded by community benefit</i>)	860

Contact: Kimberly Tillotson, 949-764-5951, Kimberly.tillotson@hoag.org

CHAPTER V: HOAG COMMUNITY HEALTH ASSOCIATES

Share Our Selves Corporation

Share Our Selves Corporation (SOS) is a Coordinated Care Agency with 49 year history of providing comprehensive care and safety-net services to low-income, homeless, and marginalized individuals and families living in Orange County. The commitment of SOS to the integration of health and social services for the most at-risk populations in our community has remained steadfast since 1970. SOS and Hoag alignment of mission, through the Community Benefit Program, has provided funding for patients without access to care an avenue to health and well- being.

Generous grant funding from the Hoag Community Benefit Program during the 2018 calendar year has been able to provide:

- **3,536** unduplicated uninsured individuals personalized care
- **9,544** medical encounters at the SOS Community Health Center in Costa Mesa
- A **reduced utilization of Emergency Department** due to access for medical care at SOS
- An **increased access** to primary care allowing for timely, efficient, and quality health care for those in need
- A **\$25,000 event sponsorship** for SOS events

This long-standing relationship between SOS and Hoag has ensured primary care services for the most vulnerable with strategic goals that work to improve the overall well-being of our shared community.

The SOS clinical network is a Federally Qualified Health Center with special designation as a Healthcare for the Homeless provider. SOS centers of care are nationally recognized as a Patient Centered Medical Home by the National Committee for Quality Assurance. Consisting of 6 service sites throughout Orange County, SOS has been able to provide primary medical, dental, and mental health care in a timely, efficient, quality, and personalized manner. Patient care remains complimented by our comprehensive Social Services program, which provides direct access to extensive support and safety-net services which address the social determinates of health. These services include, but are not limited to, the SOS Food Pantry, SOS Center of Care for the Homeless, Emergency Financial Aid, Case Management, and an array of special seasonal programs including the annual SOS Back to School program and SOS Adopt A Family program. The Social Service Department serves over 100,000 unduplicated low-income and/or homeless county residents through direct services and referrals. This extensive array of services are not restricted to patients only but open to all residents of Orange County.

Hoag's Community Benefit grant of one year supports access to primary care for the uncompensated and is vital to the wellbeing of our local community and the sustainability of SOS. This grant supports access to urgent and primary care at the right time necessary for patient healing.

Alzheimer's Family Center

Alzheimer's Family Center (AFC) has applied general operating funds generously contributed by Hoag Memorial Hospital Presbyterian to continue meeting the increased demand for high-quality dementia-specific adult day services for Orange County's most medically and financially vulnerable seniors. Across the reporting timeframe of January 1, 2019 to December 31, 2019, we have been able to achieve the following with the support of Hoag Hospital:

- (1) We have provided 27,899 cumulative patient days for 325 unduplicated adult day health care patients.
- (2) Our case managers have fielded 456 inquiries from families community-wide seeking to access supportive services (e.g., adult day health care, caregiver support groups) for themselves and their memory impaired loved ones. Approximately 45% of the families who inquire about our services admit their loved one into our adult day health care program. Each prospective patient is screened to assess whether our adult day healthcare programs may be beneficial or whether a higher level of care is required.
- (3) Our average daily attendance (ADA) or average daily census for the reporting period was 93 (we are now open six days per week). We had 117 new patient admissions and 125 patient discharges for an attrition rate of 4.25%. Patient discharges were mainly attributable to patient health decline or placement into higher levels of care.

We would like to share some demographics and characteristics of our patient population:

- Average patient age is 80.
- 90% of our patients have 2 or more chronic medical conditions in addition to dementia.
- 45% of our patients use an assistive device for ambulation.
- 22% of our patients require a special diet (e.g., diabetic, pureed, mechanical, chopped).
- 95% of our patients have behavioral symptoms (e.g., wandering, agitation, aggression).
- 53% of our patients are identified as high risk for falls.
- Race/Ethnicity:
 - 72% White
 - 19% Asian
 - 7% Hispanic/Latino
 - 1% African American
 - 1% Other
- 46% of patients are male; 54% are female.
- We serve patients from 33 cities.

Additional Updates Across Reporting Period

Nursing Care - Our nursing department made 497 new and recurrent assessments, and our staff made over 3,000 contacts to family caregivers to address medical needs such as foot checks,

medications, TB tests, first aid, illness and bathroom issues, assistive device changes, fall risk issues and behavioral changes. In addition, staff made 508 contacts with patients' primary care physicians to address medical needs (i.e., diabetic foot checks, blood pressure readings that were out of range, pain management, medication adjustments, and behavioral changes).

Intensive Outpatient Program – Intensive Outpatient Program – Alzheimer's Family Center, in partnership with Mission Hospital, launched the Mind & Memory Program in January 2018. The Mind and Memory Program is an Intensive Outpatient Program serving individuals with both a cognitive disorder and a psychiatric disorder such as depression, anxiety, post-traumatic stress disorder and more. In the first 18 months, the Mind and Memory Program served more than 215 patients and provided 9,026 days of service, operating both morning and afternoon programs Monday through Friday. Outcomes included:

- 67.1% of patients demonstrated a decrease in depressive symptoms.
- 43% of patient demonstrated a decrease in anxiety symptoms.
- 68.4% demonstrated an increase or stability in cognitive function.

Newport Mesa Family Resource Center (NM FRC)

The Newport Mesa (formerly Costa Mesa) Family Resource Center (NM FRC) is a family friendly community based collaborative with the capacity to provide on-site access to comprehensive prevention, intervention, and treatment services. As one of 15 Family Resource Centers throughout Orange County, the Newport Mesa FRC provides social, educational, health, and supportive services for all families including birth, blended, kinship, adoptive, and foster families. Services are culturally sensitive and offered by staff in the language reflecting the families and communities served. The Newport Mesa FRC serves as a vehicle for engaging local residents and community organizations by actively seeking and promoting leadership of community members through partnership with Community Engagement Advisory Councils (CEAC's). Families walking into the Newport Mesa FRC can access a menu of "Core Services," which have been designed based on best practices. These Core Services include:

- Counseling
- Parenting Education
- Family Support Services
- Domestic Violence Personal Empowerment Program
- Information and Referral Services
- Comprehensive Case Management Services
- Out of School Time Youth Programs
- Family Reunification Family Fun Activities
- Adoption and Promotion Services

The collaboration with Hoag has strengthened the NMFRC in providing additional community resources and network of supports and services. Located in Hoag's Center for Healthy Living, the Newport Mesa FRC is able to provide families with access to a broad range of comprehensive services. The collaborative partners that help the NMFRC to provide these services include: Human Options, Girls Inc., Raise Foundation, and Children's Bureau. Additional collaborations have also included Moms of Orange County, Help Me Grow, Newport Mesa Unified School District, Strong Families Strong Children collaborative, and Second Harvest Food Program. This last fiscal year, NMFRC has added the City of Costa Mesa, Save Our Youth, and Early Childhood OC as collaborative partners.

Below are some highlights from January 1, 2019 – December 31, 2019. To better align with the community and needs, the Costa Mesa FRC changed its name this year to Newport Mesa FRC. This allows for families from both Costa Mesa and Newport Beach to feel included and access services. This reporting period, NMFRC has had over 9,000 encounters with the children and families in the Newport Mesa community. This includes walk-ins, referrals, accessing services and/or attending events. With NMFRC completing its 4th year since opening its doors, there has been a significant increase in the number of children and families served and linkage to services.

Teen Conference This year marked the 4th Annual Love Shouldn't Hurt: Teen and Parent Conference. The conference was dedicated to promoting awareness about Healthy Relationships

while increasing communication between teens and parents or caring adults. The conference was an engaging day of workshops for both teens and parents/caring adults, a community resource fair with 15 local agencies sharing about services and resources, activities for younger siblings, swag, raffle prizes and an opening performance by a teen from the NMFRC Youth Action Council. The theme of the day was based on technology and dating. While the teens received information and ways to stay safe, parents and caring adults were educated on various technology apps and safety regarding teen dating. Breakfast and lunch were catered by Taco Mesa, which is a local restaurant in the city of Costa Mesa. Councilmember Arlis Reynolds from District 5 of the city of Costa Mesa attended the conference. She presented Human Options with a proclamation on behalf of the city that acknowledged Teen Dating Violence Awareness Month in the city of Costa Mesa and shared about her desire to be more involved with the community and the FRC. The event was held at Newport Harbor High School, with over 100 participants attending the event.

Food Distributions The food distributions at NMFRC have been a tremendous support to families not only from the Newport and Costa Mesa areas, but through all of Orange County. On average, there are about 150 families served each month, with 225 families being the highest number served. The food distribution is a collaboration between NMFRC, Melinda Hoag Smith Center for Healthy Living, and Second Harvest Food Bank. The distributions are led by staff and community volunteers who donate their time and support. Since the last reporting period, there has been an increase in volunteers who have committed their time to giving back to the community through the food distributions. Some of the volunteers come from groups including the Key Club, Hoagnar team, and Assistance League, and teachers from the school district. Food distributions are held the 1st Saturday of the month (excluding holidays) at 1pm. Another highlight through this service has been the number of children attending. On average, 50 children a month are provided with child care during the food distributions. Girls Inc. staff and Human Options Children's Activity leaders plan intentional activities for the children during these events.

Family Nights – As a way to increase family engagement, Newport Mesa FRC has hosted four family nights this past year. The May Family Night theme was Hispanic Heritage, where members from the Youth Action Council created a mural to share about cultural influences. Additionally, Newport Mesa Family Resource Center held the 3rd Annual Winter Family Night, where families came together for a night of food, holiday crafts, and watching the latest “Grinch” movie. There were 26 families with 100 people in attendance. Through the support of the staff and Youth Action Councils working the events, families were provided dinner and family bonding crafts and activities.

Cancer Kinship

The mission of Cancer Kinship is to empower cancer patients to confidently face the disease through peer mentorship, individualized and group support, survivor education and socialization provided by caring and compassionate volunteers and staff. The long-term vision is a community where anyone affected by cancer – no matter where they stand in their journey – are able to brave the storm together, confidently and fearlessly.

Cancer Kinship aims to address the emotional and psychosocial impact of cancer as an upstream approach to reduce cancer recurrence risks and to improve the long-term quality of life for cancer survivors. Our programs engage participants in activities that promote healthy behaviors and provide opportunities for human connections that inspire hope, while alleviating emotional distress often experienced by cancer patients.

Addressing the Dark Side of Cancer Survivorship

Cancer survivorship fact (and good news): There are more cancer survivors alive today than ever before. By 2029, the number of survivors is projected to increase by 29%. Surviving cancer is definitely a cause for celebration and a major milestone in what, for many, is an agonizing and life-altering personal experience. However, the emotional impact of cancer may result in 61% reduction of life expectancy if left unaddressed. Many studies confirm a strong correlation between depression and cancer along with other forms of emotional distress such as anxiety, fear and suicide risks reaching up to 13 times higher than the normal population. Death by suicide often occurs in the first year after diagnosis, even when treatment is working or while patients are in full remission. Depressive symptoms are often overlooked because they mirror the effects of treatments. Many resources are expended on research and prevention, but not enough awareness and resources are available to address the emotional impact of cancer for a growing population.

Organization History, Leadership & Location

Cancer Kinship was founded by Yolanda Origel, a 11-year Stage 3 breast cancer survivor whose professional background includes 25 years of nonprofit experience. She is grateful patient of St. Joseph's Center for Cancer Prevention and Treatment and Hoag Hospital Presbyterian. Losing both her mother and sister to Stage 4 metastatic breast cancer, along with her personal experience as a peer mentor for newly diagnosed cancer patients, were the impetus for tapping into her vast and diverse nonprofit experience to develop Cancer Kinship's nonprofit business plan. In November 2018, Cancer Kinship began operating under the fiscal sponsorship of OneOC, IRS Tax ID #95-2021700. OneOC is a trusted and well-established 63-year-old nonprofit management services organization located in Santa Ana, CA. Cancer Kinship has a ten-member Executive Advisory Council which includes Dr. Michele Carpenter (Chair) and Dr. David Margileth, both physicians of St. Joseph's Center for Cancer Treatment and Prevention; the Executive Director of the American Cancer Society, Western Region and other local business and community leaders; many whom are cancer survivors. Council meetings were held quarterly at the Melinda Hoag Smith Center for Healthy Living (MHSCHL).

Cancer Kinship began operating at the MHSCHL during the program planning phase between January through September 2019. The in-kind gift of office space allowed Cancer Kinship to minimize costly overhead expenses that are daunting for many start-up organizations with limited budgets. These cost-savings enabled Cancer Kinship to allocate funding to support infrastructure and technological investments that were critical to launch programs. Additional cost-savings were used for staff investments to support direct services for adult cancer patients with all cancer types. In October 2019, the following programs were officially launched and piloted:

1. **“Cancer Connections,” an individualized Peer Mentorship Program** provides hope and encouragement, reduces patient isolation and promotes a sense of belonging by pairing newly diagnosed cancer patients with trained survivor mentors for one-on-one support. *(3 trainings held in 2019)*
2. **Survivor Empowerment & Education Program** provides participants with practical knowledge and skills to help them cope, adjust and navigate their “new normal” lives as cancer survivors. Education is provided in the form of weekly classes and quarterly workshops on relevant topics that empower patients to reach their wellness and survivorship goals. *(16 workshops/classes in 2019)*
3. **Survivor Socialization Programs** build community by providing activities in safe, non-clinical settings that promote healthy behaviors and provide healthy physical outlets. Participants have fun while maintaining active lifestyles. Socialization activities also includes patient’s families and/or care providers. *(Offsite)*

Understanding how cancer impacts population groups differently and that minority groups continue to experience disparities that affect care and survival, our programs are offered in the Spanish language with plans to expand to the Vietnamese community in the future. As we’ve now moved into 2020, we are launching full-scale programming and will be focusing on community outreach to grow our programs. We look forward to measuring the impact of our programs at the completion of our first program year in 2020.

Skills-Based Volunteer Engagement

Cancer Kinship values the impact of volunteers and their role in short-term and long-term organization development and sustainability. In 2019, a total of 80 volunteers served more than 2,500 valued at \$63,575 (based on Independent Sector’s Value of Volunteer Time @ \$25.43/hour). Engagement included: Executive Advisory Council and Program Development committees, legal counsel, web development, marketing and brand development, fundraising, IT and administrative support. Cancer Kinship’s Executive Director also served as a full-time skills-based volunteer until funding was secured in October 2019, which enabled the successful transition to a full-time paid position. Additionally, an AmeriCorps Fellow was secured in October 2019 who served a full-time (40 hrs/week) service term from October through December 2019. Skills-based volunteers will be leveraged to meet Cancer Kinship’s future infrastructure, operational and programmatic needs, while providing meaningful volunteer engagement opportunities for the community in the future.

Addressing Social Determinants of Health with Community Partnerships

By leveraging our partnership with the MHSCHL, we are able to provide interventions that have been demonstrated to not only improve the quality of life of cancer patients, but also significantly reduce risks of cancer recurrence, mortality, depressive symptoms; thus, enabling the successful transition from vulnerable cancer patients to thriving cancer survivors. Operating at the MHSCHL enables us to utilize a holistic approach in serving our clients by addressing key social determinants of health that are barriers to long-term cancer survival through community partnerships. Whole-person support is provided with resource referrals to partner agencies and programs within the MHSCHL. Resources include: professional mental health services, monthly produce distributions, free legal and tax preparation services, individual empowerment workshops and support groups, access to health care with an in-house community clinic, afterschool youth programs, youth mental health services, pastoral care, and many other safety net and critical human services that address social determinants of health – all located under one roof.

The case management staff at the MHSCHL assists us with resource navigation support. Additionally, a partnership was established in December 2019 with the Newport Mesa and Oakview Family Resource Center *Promotoras* who are assisting by providing community outreach support and language-appropriate information dissemination within these communities. Through our partnership with the MHSCHL, we promoted our programs at the Hoag Family Health Day Community Resource Fair held in October with more than 500 in attendance. Additionally, we partnered with Susan G Komen Orange County and the MHSCHL and co-hosted the Spanish Breast Cancer Conference with more than 50 breast cancer patients in attendance for a day-long event. We are grateful for the support we've received from the Melinda Hoag Smith Center for Healthy Living in 2019 and look forward to further developing a long-term partnership that will impact the lives of our local cancer community for many years to come.

The National Alliance on Mental Illness, Orange County (NAMI-OC)

NAMI-OC is an affiliate of NAMI National and NAMI California. Our programs support a diverse community of individuals living with mental health conditions, Family Members, Healthcare Providers, and Mental Health Advocates throughout Orange County. All education, support, and advocacy programs are offered at no-cost throughout Orange County. Combined, our seven (7) signature psychoeducational courses, nine (9) community advocacy events, and four (4) lived experience-based support services including nineteen (19) support groups directly benefited approximately **20,000 community members** in fiscal year 2018-2019. All programs and presentations are facilitated by NAMI-trained teachers, staff, and volunteers whose one common prerequisite is “lived experience” with mental illness.

NAMI-OC’s programs are multi-culturally relevant and tailored for all age groups including youth, adults, and seniors. Programs are offered in English and Spanish predominantly, with some programs available in Korean and Vietnamese. NAMI-OC’s tireless 40-year commitment to providing effective support in the County is further motivated by our understanding of the great, unmet needs of hundreds of thousands of people living in OC today. We match awareness of that demand with the confidence that each life impacted makes an important difference for that individual and their loved ones.

NAMI CONNECTS:

NAMI Connects, originally conceptualized as “NAMI in the Lobby”, is a first-of-its-kind peer support program in the Emergency Department of Hoag Hospital, Newport Beach. This program provides an extra level of care to mental health patients and their family members through the acts of empathetic listening, sharing personal stories regarding mental illness, and the distribution of pertinent resources to patients and their family members. The purpose of this program is to aid patients and their family members to engage in their own healing process, to restore hope, and to improve the overall quality of patient care at Hoag Hospital.

Hoag Hospital’s Community Benefit - “Community Health Needs Assessment” identified Mental Health as a key Priority Area. NAMI Connects allows Hoag Hospital’s Emergency Department to be better equipped to serve the Newport-Mesa community with mental health needs, especially those in acute psychiatric distress.

Short term benefits of implementing NAMI Connects include:

- Additional support for hospital staff
- Improved patient outcomes
- Improved customer satisfaction

Long term benefits of implementing NAMI Connects include:

- Decrease in readmission rates
- Increased utilization of more appropriate community resources
- Improved community mental health status

Through the support of Hoag's Community Benefit, NAMI-OC was able to directly impact over **523 Patients** and **175 Family Members** since its inauguration, and spent a combined **291.66 hours** providing face-to-face peer support, resource education, and advocacy.

Contact: Amy Durham, Director of Development, at (714) 544-8488 or adurham@namioc.org

Project Self-Sufficiency

Project Self-Sufficiency (PSS) is a one-of-a-kind Orange County nonprofit that helps low-income single parents graduate college and enter a career that will lift their family out of poverty. We do this by providing wraparound services, addressing multiple educational barriers that student-parents face. Key components include flexible emergency aid/micro-grants and long-term case management. Our financial supports include emergency rental assistance, security deposit assistance, childcare assistance, textbook assistance, vision/dental expenses, auto repair, scholarships, and emergency aid for other urgent expenses, such as an unexpected medical bill.

PSS serves low-income single parents who are enrolled in college or vocational training in Orange County. They are 97% women, 100% are single parents with at least one child under the age of 18. 86% have school-aged children and 23% have children aged 0-5. Some have multiple children that span those ages. 100% are classified as very low or extremely low income according to HUD guidelines for Orange County households. Several parents have learning disabilities, and about 15% are parenting children with disabilities such as autism, ADHD, or learning disabilities. Several parents are uninsured. 95% are on MediCal.

Even with assistance like financial aid, childcare subsidies, cash aid and food stamps, many single parents in college in Orange County are surviving on less than \$1500/month, or less than \$20,000 per year. By comparison, renters in Orange County must earn over \$70,000 annually to afford a 2-bedroom apartment (OC Register, 2017). The situation for single parents in college in Orange County is quite dire. They are often one flat tire away from dropping out. This reflects the larger national trend that shows that for the poorest wealth group, college attendance has risen in recent years but college graduation has not (David Leonhardt, New York Times 2018).

College attainment for low-income single parents has far-reaching, multigenerational benefits, but only 28% of single mothers, for example, graduate with a certificate or degree within six years (Institute for Women's Policy Research 2018). 1 in 5 college undergrads are parents, and 43% of those are single mothers. Postsecondary education remains a research-backed path out of poverty for low income populations like single parents.

Project Self-Sufficiency continues to enjoy being located full-time within the Melinda Hoag Smith Center for Healthy Living. We appreciate the opportunity to collaborate with other partner agencies and benefit daily from the synergy of the shared space.

Project Self-Sufficiency was honored to receive support for our Homelessness Prevention/Rapid Re-Housing Program for CY2019 (January 1, 2019-December 31, 2019). The Homeless Prevention/Rapid Re-Housing Program assists low income single parents to quickly be placed into affordable housing, to pay for a motel stay while researching or finalizing housing opportunities or assisting with utility bills. PSS pays for short motel stays, security deposits, first month's rent or rental assistance and utilities. Received funds were used for homelessness prevention programming, including security deposit assistance, emergency rental assistance, and short-term emergency motel stays. In 2019, PSS served 192 people, or 80 families. 80 families were screened and had access to homelessness prevention and rapid re-housing funds, including emergency hotel/motel stays if needed. 76 of these families received homelessness case management services by attending scheduled Individual Action Plan appointments. The rental housing market in Orange County is very competitive and volatile. It is a landlord's market and clients must act quickly to secure and keep affordable units. PSS is grateful for Hoag's support for this critical program.

Financial Assistance Policy

Policy	<p>Hoag seeks to address patient’s health care and financial needs while remaining committed to the stewardship of Hoag resources. To ensure that Hoag obtains appropriate reimbursement for services provided, several payment options and programs are available to support the needs of uninsured and underinsured patients. When it is determined that a payment solution cannot be obtained through such payment options and programs, then the patient is provided with information about the Hoag Financial Assistance Program (FAP).</p> <p>Patient collections processes shall remain in compliance with Hoag policies relevant to patient financial assistance:</p> <ul style="list-style-type: none"> ■ Any patient who requests financial assistance will be afforded the opportunity to

	<p>apply and be considered.</p> <ul style="list-style-type: none"> ■ Access to necessary care shall in no way be affected by whether financial assistance eligibility exists; medically necessary care will always be provided to the extent the Hospital can reasonably do so. ■ The need for financial assistance is a sensitive and deeply personal issue for patients. All Hoag employees will maintain confidentiality of requests for assistance, the information obtained in the application process, and the funding or denial of assistance. ■ In an effort to ensure patients' post-acute and follow-up health care needs are met, patients who demonstrate lack of financial coverage by third-party insurance are offered information on how the patient may obtain applications for Medicare, Medicaid, Medi-Cal and the Healthy Families Program (CA), coverage offered through the Covered California (CA), or other state or county funded health coverage programs. Hoag will assist patients with applying for government-sponsored programs and follow through to acceptance or denial.
--	---

Patient Collections

Collections Process Overview	It is the expectation that the patient's estimated cost or liability will be collected in full prior to or at the time of service. If a patient states they cannot pay in full, payment options and programs are offered during the collections process in a consistent sequential order as outlined below:	
	Stage	Description
	1	Full payment is requested.
	2	A reasonable payment plan based on the estimate is offered. A deposit payment is requested, if appropriate.
	3	Eligibility for Government-Funded Programs is explored in programs including , but not limited to: <ul style="list-style-type: none"> ■ Medicare ■ Medi-Cal (CA) ■ Covered California ■ other state or county funded health coverage programs
4	When a payment solution cannot be found in Stages 1-3, then the patient is provided with information about the Hoag Financial Assistance Program (FAP). Pending applications for coverage through FAP and from a government funded health program will not preclude the patient's eligibility for eligibility for the other program.

Financial Assistance Program

Overview	<p>Hoag Financial Assistance Program (FAP) ensures that medically necessary health care is provided at discounted or no cost to qualified uninsured and underinsured patients. Any uninsured or underinsured patient who is unable to pay his or her Hospital bill and whose income meets the approved federal poverty level (FPL) qualifications will be considered eligible for Hoag Financial Assistance (FA). Additionally, patients who incur qualified High Medical Costs may be deemed eligible for financial assistance.</p> <p>Hoag Hospitals serve all persons in the communities where we are located. We aspire to provide health services with the utmost dignity and compassion for each patient and family in our care. In a confidential and caring environment patients in need are provided financial assistance to pay their Hoag Hospital bills and, in turn, to ensure access to needed healthcare as an essential element of fulfilling their human dignity and ability to live more healed, more whole, and more able to contribute to the common good.</p>
Completion of FAP Application	<p>Upon a patient's request, a Financial Assistance Program (FAP) application shall be provided. Designated personnel will assist patients in completing the Financial Assistance Application and determining eligibility for financial assistance, charity care, or government-funded programs, if applicable. Financial Assistance notices printed in English and Spanish are also placed in the public admission areas at Hoag hospitals. Interpretation services are available to address any questions or concerns and to assist in the completion of Financial Assistance Applications.</p> <p>A patient, or patient's legal representative, who requests a discounted payment, charity care, or other assistance in meeting his or her financial obligation to the hospital shall make every reasonable effort to provide the hospital with documentation of income and health benefits coverage. If the person requests charity care or a discounted payment and fails to provide information that is reasonable and necessary for the hospital to make a determination, the hospital may consider that failure in making its determination.</p> <p>Upon establishing full or partial eligibility under the financial assistance program the</p>

Title: Financial Assistance Policy	

Automatic Classification for Charity Care

Under the following special circumstances, a patient may be deemed eligible for Charity Care without absolute requirement for submission of a financial assistance application:

Circumstance	CALIFORNIA
Eligible for other FPL-qualified programs	(Addressed in Other Special Circumstances section below)
Disabled	n/a
Deceased	Is deceased and without third-party insurance coverage or identifiable estate, no living spouse
Incarcerated	n/a
Homeless	Is determined to be homeless and is not currently enrolled in Medicare, Medicaid or any government sponsored program, without third-party insurance coverage
Seen in ER, unable to bill	Is treated in the Emergency Department but the Hospital is unable to issue a billing statement
Access to Care	Is treated through an Access to Care Program

Other Special Circumstances	<p>Patients who are eligible for FPL-qualified programs such as Medi-Cal, Medicaid, and other government-sponsored low-income assistance programs, are deemed to be indigent. Therefore, such patients are eligible for Charity Care when payment for services is not made by the programs. Patient account balances resulting from non-reimbursed charges are eligible for full charity write-off. Medi-Cal Share of Cost obligations are not eligible for charity write off or the discount program. Specifically included as eligible are charges related to the following:</p> <ul style="list-style-type: none"> ■ Denied inpatient stays ■ Denied inpatient days of care ■ Non-covered services ■ Treatment Authorization Request (TAR) denials ■ Denials due to restricted coverage

Presumptive Charity	<p>Hoag recognizes that a portion of the uninsured or underinsured patient population may not engage in the traditional financial assistance application process. If the required information is not provided by the patient, Hoag utilizes an automated, predictive scoring tool to qualify patients for Charity Care. The PARO™ tool predicts the likelihood of a patient to qualify for Charity Care based on publicly available data sources. PARO provides estimates of the patient's likely socio-economic standing, as well as, the patient's household income and size.</p>
Approval Levels	<p>Financial assistance determination will be made only by approved Hospital personnel according to the local Hospital levels of authority.</p> <p>Notification of Determination</p> <p>Patients will receive notification of Hospital determination within 30 days of submitting the completed application and supporting documentation.</p> <p>Patient Disputes</p> <p>FAP qualifications are determined after the application is reviewed for eligibility based on criteria contained in this policy. Financial assistance shall not be provided on a discriminatory or arbitrary basis, however the hospital retains full discretion to establish eligibility criteria based on sufficient evidence and information provided by the patient or guarantor.</p> <p>In the event of a dispute, a patient or guarantor may seek review from management or the executive director of revenue cycle via email at PFS@hoag.org or in writing by providing additional information to support the dispute at:</p> <p style="text-align: center;">Hoag Memorial Hospital Presbyterian Attn: Executive Director of Revenue Cycle 500 Superior, Suite 250 Newport Beach, CA 92663</p>
Proof of insurance	<p>If a hospital bills a patient who has not provided proof of coverage by a third party at the time the care is provided or upon discharge Hoag will provide the patient with a Notice Of Availability Financial Assistance (NAFA)</p>

Title:	Financial Assistance Policy		

Definitions

This publication contains the following terms:

Term	Definition
Affordable Care Act (ACA)	A federal mandate that aims to increase the quality and affordability of health insurance.
Charity Care	Medically necessary Hospital services provided at no cost to a patient who lacks or has inadequate insurance and meets defined low-income requirements.
Covered California	California's Health Insurance Marketplace program that provides assistance in shopping for affordable health care and possibly financial assistance. Covered California will also assist in determining qualification for Medi-Cal.
Deposit	When payment arrangements are made, the first installment payment is considered the deposit. The deposit is negotiated, starting at 50% of total estimated patient liability.
Government-Funded Insurance Programs	The following are included in "government-funded insurance programs" (but is not limited to): <ul style="list-style-type: none"> ■ Medicare ■ Presumptive Eligibility (Medi-Cal) ■ Medi-Cal (CA) ■ Covered California (CA) ■ Out Of State Medicaid
Health Insurance Marketplace	A component of the Affordable Care Act (ACA) is the Health Insurance Marketplace (formerly known as Exchange). Each state is mandated to have this on-line venue for consumers and small businesses to compare and purchase insurance coverage options and to learn if they are eligible for federal insurance subsidies.
High Medical Costs	California: A patient is considered to have High Medical Costs if he or she has either of the following: <ul style="list-style-type: none"> ■ Annual out-of-pocket costs incurred by the individual at the Hospital that exceed 10 percent of the patient's family income in the prior 12 months. ■ Annual out-of-pocket expenses that exceed 10 percent of the patient's family income, if the patient provides documentation of the patient's medical expenses paid by the patient or the patient's family in the prior 12 months.
HMO/PPO Payment Rate	The average amount of payment the Hospital would receive from all contracted HMOs/PPOs for providing services. This rate, represented as a percent of total billed charges, is Hospital-specific and updated periodically.
Out of State Medicaid	Hoag will bill for Out of State Medicaid provided a contract is approved by the state and/or obtained through an outsourced vendor.

Title:	Financial Assistance Policy		

Term	Definition
Medi-Cal (CA)	Medi-Cal is California's federally funded health insurance programs that pays for a variety of medical services for children and adults who have limited resources and low-income. Under ACA, Medi-Cal has expanded who may be eligible.
Medically Necessary Services	Services or supplies determined to be proper and needed for the diagnosis, direct care or treatment of the medical condition and meet the standards of good medical practice in the medical community.
Excluded services	If services not deemed a medical necessity, CDU, Cosmetic, gastric bypass for weight loss.
Presumptive Charity (PARO, SOS and La Amistad programs)	Share ourselves program (SOS) and La Amistad have been pre-determined to meet the program guidelines as these individuals were determined to be at or below 200% FPL. SOS and La Amistad complete their own screening and approval. Payment Assistance Rank ordering (PARO) Score: PARO is a patient account scoring mechanism. PARO score is evaluated bi-annually and calibrated to reflect the charity care policy of Hoag for evaluation and eligibility criteria.
Medicare	Medicare is a federally funded health insurance program for qualified people age 65 or older. Certain people younger than 65 also qualify based on disabilities or renal disease. This program helps with the cost of health care, but it does not cover all medical expenses or the cost of long-term care. It is not based on low-income. It is not part of the Health Insurance Marketplace, but there are some coverage changes as a result.
Medicare Payment Rate	The average amount of payment the Hospital would receive from Medicare for providing services. This rate is Hospital-specific and updated periodically.
Payment Arrangements / Installment Plans	A plan negotiated and agreed to by the Hospital and the patient that sets the terms of extended payment for services provided by the Hospital. Any pre-service payment plan is based on an estimate and the financial counselors and/or schedulers coordinate payment plans through the self-pay supervisor as Final terms are set up after final billing.
Reasonable Payment Plan (CA)	If Hoag and the patient/guarantor, cannot agree, the Hospital shall create a reasonable payment plan Monthly payments pursuant to a reasonable payment plan cannot exceed more than 10 percent of a patient's family's monthly income, excluding deductions for essential living expenses.
Essential Living Expenses (CA)	Expenses for any of the following: rent or house payment and maintenance; food and household supplies; utilities and telephone; clothing; medical and dental payments; insurance; school or child care; child or spousal support; transportation and auto expenses, including insurance, gas and repairs, installment payments; laundry and cleaning; and, other extraordinary expenses.

Attachment A: Hoag Notice of Availability of Financial Assistance

Mission

Our missions as a non-profit, faith-based hospital is to provide the highest quality health care services to the communities we serve.

What is the Patient Financial Assistance Program?

Hoag Hospital's Financial Counseling Department offers free financial screenings for people who do not have health insurance and cannot pay their hospital bill, as well as patients who do have insurance, but are unable to pay their portion of the bill that insurance does not cover.

Our Financial Counselors will review your eligibility for Medicare, Healthy Families Program, Medi-Cal, or other coverage offered through the California Health Benefit Exchange, California Children's Services program, other state- or county-funded health coverage, or charity care. If you already have coverage through one of these programs please notify our Financial Counselors immediately. Patients ineligible for government assistance may still qualify for discount or charity programs available through Hoag Hospital.

How and When to Apply

Please contact our Financial Counselors immediately after discharge or completion of services by calling 949-764-5564 or by e-mail at FC@hoag.org. We can assist with your application and provide the applications for Medicare, Healthy Families Program, Medi-Cal, or other coverage offered through the California Health Benefit Exchange, California Children's Services program, other state- or county-funded health coverage. You may also be referred to www.OCGOV.com for local assistance.

If you lack, or have inadequate, insurance, and you meet low- and moderate-income requirements, you may qualify for discounted payment or charity care. Please remember that access to necessary health care is not affected by eligibility for financial assistance. Hoag Memorial Hospital is committed to treating all those who come to us for care.

You may also apply directly for the above programs by accessing their website directly:

Medi-Cal: <http://www.dhcs.ca.gov/services/medi-cal/pages/applyformedi-cal.aspx>

Affordable Care Act: www.HealthCare.gov to apply by phone Call 1-800-318-2596

Medicare: www.ssa.gov/medicare/apply.html

Hoag Charity care program: www.Hoag.org (Patient & Visitors tab, Billing, Charity Care Application)

Confidentiality

We understand that the need for financial assistance can be a sensitive and deeply personal issue. We are committed to maintaining the confidentiality of requests, information and funding.

For more information please contact one of our Financial Counselors at 949-764-5564, we are available Monday through Friday from 8:30 AM to 4:30 PM, or by e-mail at FC@hoag.org.
