

Prima

Simple IP20 surface mounting

Catalogue 2009

Schneider
Electric

Prima is your simple **IP20** surface mounting solution for refurbishment

P110730

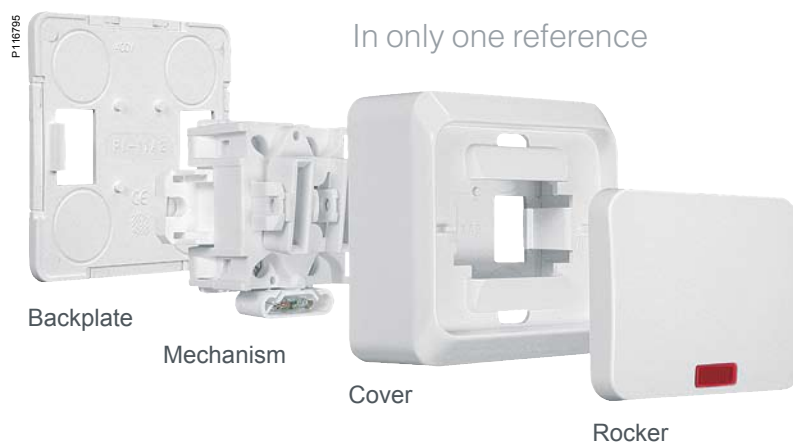

> Simple

The Prima range offers the types of switches and socket outlets you need for refurbishment projects when surface-mounting is a must.

Installation is easy with Prima's convenient screw terminals and can be associated to KM minitrunking accessory.

> Cost-effective

Good quality for cost is what it's all about for surface-mounting refurbishment, country houses and places where IP20 protection is required, with a very good value for money.

White - RAL 9003

Cream - RAL 1015

> Style

The robust look and feel of trim-sized Prima switches and socket-outlets appeals to customers and installers alike.

Simple to install

Prima switches

Use a screwdriver to lightly lever the rocker.

Lever the cover snaps on both sides of the insert, pushing the screwdriver handle towards the centre of the switch, and remove the cover.

Remove the backplate and determine the position of outgoing wires (through backplate or side of cover).

Connect wires to the terminals according to the markings on the back of the insert.

Snap the insert onto the backplate and fix the insert to the wall with screws. Distance between screws: 38 mm.

Snap on the cover.

Press in the rocker.

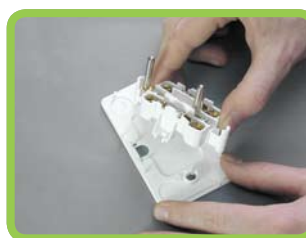

Prima socket-outlets

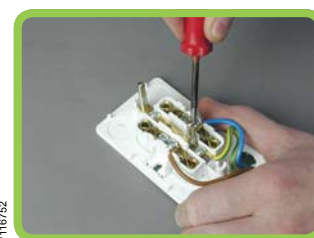

Unscrew the cover fixing screw.

Remove the cover.

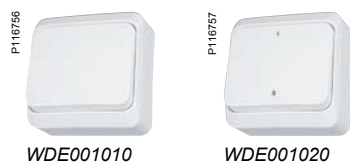

Remove the backplate, determine the position.

Snap the insert onto the backplate, fix the insert to the wall with screws (distance between screws: 38 mm).

Fix the cover screw.

Switches with screw terminals

10 AX - 250 V AC switches
