PLEASE ASK TO SPEAK WITH A MANAGER IF YOU NEED ANY FURTHER GUIDANCE

At Pizza Hut Restaurants, we offer a range of food and dining options to cater for your lifestyle choices – we call this ‘Taste Freedom’. However, with freedom comes responsibility and your health and wellbeing is our number one priority.

We cook up a storm, preparing all of our delicious food in the same place where different allergens (such as milk) are present. While it’s prepared with care, we can’t guarantee your food will be allergen-free, with the exception of our gluten-free dishes that contain 20ppm or less of gluten, even after removing specific items on request. Whilst our vegan items have vegan recipes, due to risk of cross-contamination they may contain dairy. Finally, please note due to the seriousness of allergies and food intolerances, our restaurant teams will not be able to help select dishes.

If you, or anyone with you today, has a food allergy, please check this Allergen Guide for information on the 14 allergens, or for the full list of ingredients please scan the QR code.

From time to time, suppliers and items on our menu will change and this can result in a change in ingredients and potentially allergens. Please check before each visit.

Allergy data in the table has been derived from specifications obtained from the suppliers of the products. We have taken all reasonable steps to ensure that this table is accurate at the time of publishing (December 2025).

The Nut column indicates the presence of the following: almonds, brazils, cashews, hazelnuts, macadamias, pecans, pistachios, walnuts and their respective derivatives.
