CALS = CALORIES	SAT FAT = SATURATED FAT	CHOLEST = CHOLESTEROL	CARB = TOTAL CARBOHYDRATES	SUGAR = SUGAR
FAT = TOTAL FAT	TRANS FAT = TRANS FAT	SODIUM = SODIUM	FIBER = TOTAL FIBER	PROTEIN = PROTEIN

The nutritional content included in this guide was calculated using nutritional values sourced from suppliers, independent laboratories, and the USDA Agricultural Research Service Nutrient Data Laboratory. The rounding of figures is based on Food and Drug Administration guidelines.

None of our menu items contain artificial trans fat. However, our menu items may contain small amounts of naturally-occurring trans fat, commonly found in some meat and dairy products, which is permissible by law.

While we strive to provide complete and accurate nutrition information, ingredient variations may occur due to natural variability within ingredients or variations that occur due to the hand-crafted nature of our menu items, guest substitutions, and regional availability of products. In addition, menu offerings may vary by restaurant and may not be available at all locations; test products, test recipes, limited time offers, or regional items may not be included. If you have any questions about this information, please visit our Contact page.

This guide is updated periodically; we suggest you check back each time you dine with us.

 Menu items marked with the protein icon contain more than 50 grams of protein, adjusted for quality and digestibility using Protein Digestibility-Corrected Amino Acid Score (PDCAAS). This method reflects how efficiently the body can use the protein in the food.

Only standard menu builds were evaluated, and modifications or substitutions may change the total protein and affect eligibility for the icon. Shareable or large-format menu items were not included, as they do not have defined individual portion sizes.
