4. The following procedures are not included in the Puppy Package, but can be performed while the pet is under general anesthetic for the spay procedure. All fees incurred for these additional services must be paid in full prior to the patient being discharged from the hospital. *(Fees listed below are an estimation of cost and are subject to change.)*
 - microchipping with registration - additional fee of \$72

6. The Puppy Package and all of the included services will expire one year from the date of purchase as listed on page one of the agreement.
7. If you choose to cancel the package for any reason, the package services that have been utilized will be assessed at full price and then deducted from the amount paid toward the package.
8. Puppy Packages are only valid at Eagle Animal Clinic and for the pet in which it was purchased. Unused services cannot be transferred to another pet and will only be honored for the pet listed on the agreement. However, services are transferrable with the puppy (if you re-home the puppy, with your consent, the remaining package services will be transferred to the new owner).
