

CARING HANDS, CARING HEARTS

SENIOR PET HOME GUIDE

Improving Environment, Improving Quality of Life

As pets age, small changes in their environment can help them stay comfortable and independent. Try these simple adjustments to support their mobility and quality of life.

Add non-slip mats on hard floors

Add an anti-fatigue mat at the feeding area

Switch to an orthopedic bed without raised sides

Use a low-sided litter box for cats

Add ramps or steps to furniture or entryways

Consider a hip harness for pets needing support

Raise food and water bowls to elbow height

Take shorter, more frequent walks

Provide gentle mental stimulation with training
