Strategic report for the period ended 24 April 2016

Introduction

The directors present their Strategic report for the 52 week period ended 24 April 2016 (2015 - 52 weeks ended 26 April 2015).

The company acts as an intermediate holding company for the Mabel Topco Group ("the Group"), which operates a chain of Japanese style noodle bars, trading in the UK through Wagamama Limited, and in the USA through Wagamama Inc. The UK business also operates as a franchisor of the brand in all territories in which Wagamama trades outside of the UK and USA.

The principal strategic objective is to maximise the value of the Wagamama brand, the main drivers of which are expansion of the owned estate in the UK and internationally, whilst continuing to focus on maintaining Wagamama's highly differentiated offering and its profitability.

Business review and future developments

The trading results for the period and the Group's financial position at the end of the period are shown in the attached financial statements on pages 9 and following. The directors have not recommended a dividend (2015: £454,136).

The Group continued with its expansionary activities during the period, with 10 restaurants opened and one closed in the UK. By the end of the period, the Group's estate had grown to 120 restaurants in the UK and 4 in the USA as well as 35 restaurants operated under franchise agreements.

The company has set up for growth and is expecting to open further managed restaurants in the UK and USA with additional franchise restaurants across the rest of the world.

We see the USA as a significant opportunity for Wagamama and we have already initiated our growth strategy with the acquisition of two leases in New York, one of which is under construction. We are actively exploring opportunities to work with a partner to drive growth in the USA.

Key Performance Indicators (KPI)

The directors consider the following to be key indications of the performance of the Group, both financial and non-financial:

	24 April 2016	26 April 2015
	£'000	£'000
Turnover	229,864	193,292
Operating profit/(loss)	16,660	(126)
Earnings before interest, tax depreciation, amortisation, set-up costs and certain head-office costs ("adjusted EBITDA")*	38,711	30,236
Number of restaurants	124	116
Average number of employees	4,483	3,865

*set-up costs of £2,709,000 (2015: £1,032,000) and certain head-office costs of £312,000 (2015 costs: £305,000).

Turnover grew by 19% and adjusted EBITDA by 25%. Restaurant EBITDA (being adjusted EBITDA before central costs) grew by 23%. Operating profit/(loss) grew from (£126,000) to £16,660,000 as a result of trading performance and a significant reduction in exceptional costs compared to the previous period.

The directors see considerable potential for continuing expansion of the business, both in the UK and USA and will continue to follow the growth strategy.

Mabel Mezzco Limited

Strategic report for the period ended 24 April 2016 (continued)

Principal risks and uncertainties

Brexit

Brexit has brought new uncertainty to the UK market as a whole, which may well impact our underlying sales. We have fixed price contracts in place for most of our ingredient and distribution costs for at least the financial year and in many cases beyond this.

It is unclear at this stage what further impact Brexit will have on our labour availability, underlying costs, and our international costs and revenues.

Management is alert to and continuously reviewing all potential risks and formulating its responses at the appropriate time. The business is robustly financed and feels confident in its ability to identify opportunities and manage through the economic challenges.

UK Economy

As a consumer facing business, any risks to the UK economy as a whole and in particular to consumer spending could impact the overall performance of the Group. However the brand is relatively well positioned as a result of the overall affordability of the Wagamama offering. Significant food and wage inflation are also risk factors, although the business can to a certain extent offset inflationary pressures through moderate menu price increases.

Foreign exchange risk

The Group's principal operating segment relates to the UK restaurant business, with the Group's US restaurant business not exposing the Group to significant foreign exchange risk. Employees and suppliers of the US business are predominantly paid in US dollars as a natural hedge against foreign exchange risk. Furthermore, the Group does not have significant assets or liabilities denominated in foreign currencies.

Accordingly the Group has not, to date, used any material financial instruments to mitigate its foreign exchange risk. The directors and UK management have however reviewed the situation with the planned expansion of the US restaurant business and have put certain FX contracts in place in the subsequent reporting period as part of an FX risk management strategy.

Credit risk

Trade receivables predominately arise from the Group's franchising business. The franchising business is immaterial to the Group's operations. Accordingly, the Group has no significant concentrations of credit risk. The Group has implemented policies that require appropriate credit checks on potential franchisees before sales are made.

Credit risk also arises on short-term bank deposits. Short-term bank deposits are executed only with A-rated authorised counter-parties based on ratings issued by the major rating agencies. Counter-party exposure positions are monitored regularly so that credit exposures to any one counter party are within predetermined limits. Overall, the Group considers that it is not exposed to a significant amount of credit risk.

Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and short-term deposits and the availability of funding through an adequate amount of committed credit facilities.

Cash flow and fair value interest rate risk

During the previous financial period, the Group reorganised its finances and where previously it was financed through a mixture of bank borrowings and loan notes, it is now financed through a mixture of a high yield bond (coupon 7.875%) and loan notes thereby reducing its overall cost of debt. These borrowings are in Sterling at fixed rates.

Directors' report for the period ended 24 April 2016

The directors present their report and audited consolidated financial statements for the 52 week period ended 24 April 2016 (2015 - 52 weeks ended 26 April 2015).

Business review and future developments

We have included our business review and discussion of future developments in the Strategic report on page 2.

Results and dividends

The trading results for the period and the Group's financial position at the end of the period are shown in the attached financial statements on pages 9 and following. The directors have not recommended a dividend (2015: £454,136).

The directors

The directors who served the company during the period and up to the date of signing were as follows:

P J Adams
E Bellquist
D Campbell
M H Collins
G M House (resigned 28/01/2016)
P L Taylor
J S Holbrook

Financial instruments

The Group's treasury policies are designed to ensure that adequate financial resources are available for the development of the Group's businesses.

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are consequently stated at amortised cost. Where the Group refinances its borrowings and such refinancing is substantially a new arrangement, unamortised issue costs relating to previous borrowings are accelerated to expense them in full by the date of refinancing. Such acceleration costs are treated as exceptional items.

Employees

The average number of employees and their remuneration is set out in note 5 of the financial statements.

The Group gives full consideration to applications for employment from disabled persons where the requirements of the job can be adequately fulfilled by a disabled person. Where existing employees become disabled, it is the Group's policy wherever practicable to provide continuing employment under normal terms and conditions and to provide training and career development and promotion to disabled employees wherever appropriate.

During the period, the policy of providing employees with information about the Group has been continued through internal media methods in which employees have also been encouraged to present their suggestions and views on the Group's performance. Regular meetings are held between local management and employees to allow a free flow of information and ideas.

Financial risk management

Please refer to the Strategic report on page 3 for further discussion on financial risk management.

Statement of directors' responsibilities

The directors are responsible for preparing the Strategic Report, Directors' Report and the group and parent company financial statements (the "financial statements") in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial period. Under that law the directors have prepared the financial statements in accordance with United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law (United Kingdom Generally Accepted Accounting Practice).

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and the company and of the profit or loss of the group for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" has been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and the group and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Going concern

The financial statements have been prepared on a going concern basis as, after making appropriate enquiries and taking into account the strong trading performance of the underlying business and strong group cash flow, the Directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. In making this assessment the Directors have also taken into the consideration the repayment profile of the Group's debt (as set out in Note 19) with all debt falling due for repayment in more than two years but less than five years.

Statement of disclosure of information to auditors

In accordance with Section 418, directors' reports shall include a statement, in the case of each director in office at the date the directors' report is approved, that:

- (a) so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware; and
- (b) he has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Report on the financial statements

Our opinion

In our opinion, Mabel Mezzco Limited's group financial statements and company financial statements (the "financial statements"):

- give a true and fair view of the state of the group's and of the company's affairs as at 24 April 2016 and of the group's profit and cash flows for the 52 week period (the "period") then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

What we have audited

The financial statements, included within the Annual Report, comprise:

- the Group and Company balance sheet as at 24 April 2016;
- the Group profit and loss account and the Group statement of comprehensive income for the period then ended;
- the Group cash flow statement and the notes to the Group cash flow statement for the period then ended;
- the Group and Company statement of changes in equity for the period then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies and other explanatory information.

The financial reporting framework that has been applied in the preparation of the financial statements is United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law (United Kingdom Generally Accepted Accounting Practice).

In applying the financial reporting framework, the directors have made a number of subjective judgements, for example in respect of significant accounting estimates. In making such estimates, they have made assumptions and considered future events.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and the Directors' Report for the financial period for which the financial statements are prepared is consistent with the financial statements;
- the Strategic Report and the Directors' Report have been prepared in accordance with applicable legal requirements.

In addition, in light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we are required to report if we have identified any material misstatements in the Strategic Report and the Directors' Report. We have nothing to report in this respect.

Mabel Mezzco Limited

Independent auditors' report to the members of Mabel Mezzco Limited (continued)

Other matters on which we are required to report by exception

Adequacy of accounting records and information and explanations received

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- the company financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Directors' remuneration

Under the Companies Act 2006 we are required to report to you if, in our opinion, certain disclosures of directors' remuneration specified by law are not made. We have no exceptions to report arising from this responsibility.

Responsibilities for the financial statements and the audit

Our responsibilities and those of the directors

As explained more fully in the Statement of directors' responsibilities set out on page 5, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view.

Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland) ("ISAs (UK & Ireland)"). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

What an audit of financial statements involves

We conducted our audit in accordance with ISAs (UK & Ireland). An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of:

- whether the accounting policies are appropriate to the group's and the company's circumstances and have been consistently applied and adequately disclosed;
- the reasonableness of significant accounting estimates made by the directors; and
- the overall presentation of the financial statements.

We primarily focus our work in these areas by assessing the directors' judgements against available evidence, forming our own judgements, and evaluating the disclosures in the financial statements.

Mabel Mezzco Limited

Independent auditors' report to the members of Mabel Mezzco Limited (continued)

We test and examine information, using sampling and other auditing techniques, to the extent we consider necessary to provide a reasonable basis for us to draw conclusions. We obtain audit evidence through testing the effectiveness of controls, substantive procedures or a combination of both.

In addition, we read all the financial and non-financial information in the Annual Report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report. With respect to the Strategic Report and Directors' Report, we consider whether those reports include the disclosures required by applicable legal requirements.

1 Accounting policies

General information

Mabel Mezzco Limited is a private company and is incorporated and domiciled in the UK. The address of its registered office is 76 Wardour Street, London, W1F 0UR.

Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with the United Kingdom Accounting Standards, including Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" and the Companies Act 2006.

This is the first period that the Group and Company have presented their results under FRS 102. The last financial statements prepared under the previous UK GAAP were for the period ended 26 April 2015. The date of transition to FRS 102 was 28 April 2014. Note 28 sets out the changes in accounting policies between UK GAAP as previously reported and FRS 102.

The financial statements are prepared for the period up to the Sunday closest to 30 April being 24 April 2016. The comparative numbers used in the financial statements are for the 52 week period ended 26 April 2015.

The financial statements have been prepared on a going concern basis. After making appropriate enquiries and taking into account the strong trading performance of the underlying business and strong group cash flow, the Directors have a reasonable expectation that the company has adequate resources to continue in operational existence for a period of at least 12 months from the date when the financial statements were authorised for issue.

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group and Company accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and all Group undertakings. Where a subsidiary has different accounting policies to the Group, adjustments are made to those subsidiary financial statements to conform to Group accounting policies.

Acquisitions are accounted for under the purchase method and goodwill on consolidation is capitalised and amortised over its expected useful life. The results of companies acquired or disposed of are included in the Group profit and loss account after or up to the date that control passes respectively.

All intra-Group transactions, balances, income and expenses are eliminated on consolidation.

As a consolidated Group profit and loss account is published, a separate profit and loss account for the parent company is omitted from the Group financial statements by virtue of section 408 of the Companies Act 2006.

Related parties transactions

The Company has taken advantage of the exemption provided by FRS 102 from disclosing transactions with Group companies on the basis that those companies are wholly owned and included in these consolidated financial statements.

1 Accounting policies (continued)

Turnover

a. Restaurant turnover

The turnover shown in the profit and loss account represents the value of goods and services provided during the period, stated net of value added tax. Turnover is recognised on completion of the transaction with the customer.

b. Franchise fees

Franchise fees comprise on-going fees based on results of the franchisee and up front initial site and territory fees. Total revenue is accrued in line with performance once revenue can be reliably measured.

Goodwill

Purchased goodwill and that arising on consolidation is amortised through the profit and loss account over the directors' estimate of its useful life. If a subsidiary, associate or business is subsequently sold or closed, any goodwill arising on acquisition that has not been amortised through the profit and loss account is taken into account in determining the profit or loss on sale or closure.

The Group has elected not to apply the requirements of FRS 102 to business combinations occurring before the date of transition and no adjustment has been made to the carrying value of goodwill arising before that date.

Amortisation

Amortisation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Goodwill	–	up to 20 years
Trademarks / Licences	–	up to 20 years

Where the Group is unable to make a reliable estimate of useful life, goodwill is amortised over a period not exceeding 5 years. Goodwill is assessed for impairment where there are indicators of impairment and any impairment is charged to the profit and loss.

Tangible assets

Tangible fixed assets are held at historical cost less accumulated depreciation. Historical cost includes the original purchase price of the asset and the costs attributable to bringing the asset to its working condition for its intended use. Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Leasehold property	–	over the period of the lease
Restaurant and office equipment	–	over 3 to 10 years

The depreciation charge for the period is included within administrative expenses.

Stocks

Stocks are valued at the lower of cost and estimated selling price less cost to sell, after making due allowance for obsolete and slow moving items.

Cost is determined on the first-in, first-out method. Cost includes the purchase price, including taxes and duties and transport and handling directly attributable to bringing the inventory to its present location and condition.

Operating lease agreements

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight-line basis over the period of the lease. Lease incentives are recognised on a straight line basis over the period of the lease.

The Group has taken advantage of the exemption in respect of lease incentives on leases in existence on the date of transition to FRS 102 (28 April 2014) and continues to credit such lease incentives to the profit and loss account over the period to the first review date on which the rent is adjusted to market rates.

Onerous leases

Where EBITDA results of individual restaurants suggest potential for onerous lease charges, future expected cash flow performance in those individual restaurants is reviewed and discounted at a rate of 10% over the remaining life of the lease and compared to the discounted committed rent payments for the remainder of the lease also discounted at 10%. Where there is a deficit between cash flow and committed rent then the net cost is recorded as an onerous lease charge.

Pension costs

The Group makes payments into the personal pension schemes of certain of its employees but does not operate any scheme itself.

Deferred taxation

Deferred taxation is provided on all timing differences, without discounting, calculated at the rate at which it is estimated that tax will be payable, except where otherwise required by accounting standards.

Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of the transaction. All exchange differences are taken to the profit and loss account. Exchange differences arising from consolidation of foreign entities are recognised in other comprehensive income.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Financial assets

Basic financial instruments, including trade and other receivables and cash and bank balances are initially recognised at transaction price and subsequently carried at amortised cost using the effective interest method.

Financial liabilities

Basic financial liabilities, including trade and other payables, loans from fellow Group companies and debt instruments are initially recognised at transaction price and subsequently carried at amortised cost using the effective interest method.

2 Critical accounting judgements and estimation uncertainty

(a) Critical judgements in applying the Group's accounting policies

The Directors have not identified any critical accounting judgements in applying the Group's accounting policies.

(b) Key accounting estimates and judgements

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

Impairment of assets and goodwill

The Group considers whether its intangible assets, goodwill and tangible assets are impaired. Where an indication of impairment is identified, the determination of recoverable value requires estimation of future cash flows and selection of appropriate assumptions.

Provisions

Provision is made for onerous leases and impairment of tangible fixed assets. These provisions require management's best estimate of the timing and value of future cash flows in order to determine the value of the provision required.

9 Tax on profit/(loss) on ordinary activities (continued)

(b) Factors affecting total tax charge

The tax assessed on the profit/(loss) on ordinary activities before taxation for the period differs (2015: differs) from the standard rate of corporation tax in the UK of 20% (2015: 20.93%). The main rate of corporation tax was reduced from 21% to 20% from 1 April 2015.

	Period ended 24 April 2016	Period ended 26 April 2015
	£'000	£'000
Profit/(loss) on ordinary activities before taxation	3,631	(17,879)

Total tax (note 9(a))	1,009	1,603

The Group had unrecognised deferred tax assets of £4,451,000 (2015: £3,433,000) at the end of the period.

(c) Factors affecting future tax charges

No provision has been made for a deferred tax asset on the basis that there is insufficient evidence that the asset will be recoverable in the foreseeable future.

The re-measurement of deferred tax balances was the result of changes to the UK Corporation Tax system announced in the Finance Act 2015. These changes will reduce the main rate of tax to 19% from April 2017. Deferred tax expected to reverse in the year to 23 April 2017 have been measured using the effective rate that will apply in the UK for the period.

10 Loss attributable to members of the parent company

The profit for the financial period dealt with in the financial statements of the parent company was £29,836 (2015: £430,000).

11 Dividends

No dividends have been proposed or paid in respect of the period (2015: £454,136).

28 Transition to FRS 102

This is the first period that the Group and Company has presented its results under FRS 102. The last financial statements prepared under the previous UK GAAP were for the period ended 26 April 2015. The date of transition to FRS 102 was 28 April 2014.

Set out below are the changes in accounting policies which reconcile profit for the financial period ended 26 April 2015 and the total equity as at 28 April 2014 and 26 April 2015 between UK GAAP as previously reported and FRS 102.

Loss for the financial period	Period ended 26 April 2015
	£'000
UK GAAP as previously reported	(18,982)
(A) Rent free period for operating leases	(15)
Total adjustment to loss before tax	(15)
(B) Deferred tax liability in respect of rollover gain	(500)
Total adjustment to tax expense	(500)
FRS 102	(19,497)

28 Transition to FRS 102 (continued)

Total equity	Period ended 26 April 2015
	£'000
UK GAAP as previously reported	39,725
(A) Rent free period for operating leases	(15)
(B) Deferred tax liability for rollover relief	(500)
FRS 102	39,210

(A) Rent free period for operating leases

Under previous UK GAAP operating lease incentives, including rent free periods and capital contributions, were spread over the shorter of the lease period or the period to when the rental was set to a fair market rent. FRS 102 requires that such incentives be spread over the lease period.

The Group has taken advantage of the exemption for existing leases at the transition date to continue to recognise these lease incentives on the same basis as previous UK GAAP. Accordingly the FRS 102 accounting policy has been applied to new operating leases entered into since 28 April 2014 and the operating lease charge has increased by £15,000 for the period to 26 April 2015.

(B) Deferred tax on rollover gain

Under previous UK GAAP no deferred tax liability was recognised in respect of the rolled over gain on disposal of the Haymarket site on the basis that the Group had acquired replacement assets in excess of the value of the gain. FRS 102 requires that deferred tax is recognised in respect of the gain rolled over even when replacement assets are acquired. Accordingly a deferred tax liability to the value of £500,000 has been recognised in the period ended 26 April 2015.

Company

There were no adjustments to the Company's balance sheet at 28 April 2014 or 26 April 2015 on transition to FRS 102.
